If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our cash flows, business, financial condition and results of operations could suffer, the price of our Equity Shares could decline, and you may lose all or part of your investment. The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are risks where the impact is not quantifiable and hence the same has not been disclosed in such risk factors. Materiality

The Risk factors have been determined and disclosed on the basis of their materiality. The following factors have been considered for determining the materiality:

1. Some events may have material impact quantitatively;
2. Some events may have material impact qualitatively instead of quantitatively;
3. Some events may not be material individually but may be found material collectively;
4. Some events may not be material at present but may be having material impact in future.

INTERNAL RISK FACTORS

1. ***Our Company has been formed specifically for the purpose of acquisition of the business of M/s Handicrafts Village (Proprietorship firm of our Promoter) thus we have limited operating history as a Company which may make it difficult for investors to evaluate our historical performance or future prospects.***

Our Company was originally incorporated as a private limited Company under the Companies Act, 2013 with Registrar of Companies, Central Registration Centre through a certificate of incorporation dated March 08, 2021. After incorporation, company has taken-over the running business of Proprietorship firm of our Promoter I.e., M/s Handicrafts Village for expansion of the business of Company. We have very limited operating history from which one can evaluate our business, future prospects and viability. Our future revenues and profitability are difficult to estimate and could fluctuate significantly and as a result the price of our Equity Shares may be volatile.

Further our business prospects must be considered in light of the risks and uncertainties in respect of processing & furnishing of semi-finished products of furniture and handicrafts items. The business of furniture and handicraft was earlier carried by proprietorship firm which is recently taken over by our Company, although the proprietorship has placed the growth in past years, and will continue to place by our Company but there is no assurance that this growth will be met successfully in future. We may not be able to increase revenue or maintain profitability on a quarterly or an annual basis. If this occurs, our results of operations and financial condition will be adversely affected. Our growth exposes us to a wide range of increased risks. It will also place significant demands on our management, financial and other resources and will require us to continuously develop and improve our operational, financial and internal controls.

There can be no assurance that we will be able to successfully pursue our growth strategies, or that pursuing these strategies will provide us the anticipated benefits in terms of growth and profitability. Further, we may be unable to develop adequate systems, infrastructure and technologies, devote sufficient financial resources or develop and attract talent to manage our growth. Our inability to pursue our growth strategies successfully or at all, or an inability to manage our growth, may adversely affect our prospects.

For further details, see the section titled “History and Corporate Structure” and “Restated Financial Statements” on page 98 and 121 respectively of the Prospectus.

2. *If we are not able to obtain, renew or maintain the statutory and regulatory permits and approvals required to operate our business it may have a material adverse effect on our business.*

We require certain statutory and regulatory permits, licenses and approvals to operate our business. Our Company has been recently incorporated and started business by takeover of running proprietorship firm of our Promoter I.e. M/s handicrafts Village which deal in processing and finishing of semi-finished goods and manufacturing through job work.

We cannot assure that there is no other statutory/regulatory requirement which we are required to comply with. Further, some of these approvals are granted for fixed periods of time and need renewal from time to time. We are required to renew such permits, licenses and approvals. There can be no assurance that the relevant authorities will issue any of such permits or approvals in time or at all. Failure by us to renew, maintain or obtain the required permits or approvals in time may result in the interruption of our operations and may have a material adverse effect on our business.

Additionally, we believe that we will be able to renew or obtain such registrations and approvals or permissions, as and when required, there can be no assurance that the relevant authorities will renew or issue any such registrations or approvals in the time frame anticipated by us or at all. If we are unable to renew, maintain or obtain the required registrations or approvals, it may result in the interruption of our operations and may have a material adverse effect on our revenues, profits and operations.

For further details, see section on “Government and Other Approvals” beginning on page 159 of the Prospectus.

3. *We rely on suppliers for semi-finished products which is further processed and finished by our company. In the event of disruption in supply of semi-finished goods, our business, results of operations and financial condition may be adversely affected.*

We rely on suppliers for majorly semi-finished goods. In the event that there are any delays or disruptions in the supply of semi-finished goods from our suppliers, our ability to deliver the products may be affected. Any of our supplier’s failure to adhere to agreed timelines, whether due to their inability to comply with, or obtain, regulatory approvals, or otherwise, may result in delays and disruptions to our sales, increased costs, delayed payments for our products and damage to our reputation leading to an adverse effect on our results of operations. In the event our suppliers for semi-finished goods cease to be available to us at terms acceptable to us or we experience problems with, or interruptions in, such supplies, and we are unable to find other suppliers to provide similar semi-finished goods on comparable terms and on a timely basis, our operations may be disrupted and our results of operations and financial condition may be adversely affected.

For further details of our business, please refer chapter titled “Business Overview” beginning on Page 81 of this Prospectus.

4. *Orders placed by customers may be delayed, modified, cancelled or not fully paid for by our customers, which may have an adverse effect on our business, financial condition and results of operations.*

We may encounter problems in executing the orders in relation to our products, or executing it on a timely basis. Moreover, factors beyond our control or the control of our customers may postpone the delivery of such products or cause its cancellation, including delays or failure to obtain necessary permits, authorizations, permissions and other types of difficulties or obstructions. Due to the

possibility of cancellations or changes in scope and schedule of delivery of such products, resulting from our customer's discretion or problems we encounter in the delivery of such products or reasons outside our control or the control of our customers, we cannot predict with certainty when, if or to what extent we may be able to deliver the orders placed. Additionally, delays in the delivery of such products can lead to customers delaying or refusing to pay the amount, in part or full, that we expect to be paid in respect of such products. In addition, even where a delivery proceeds as scheduled, it is possible that the contracting parties may default or otherwise fail to pay amounts owed. While we have not yet experienced any material delay, reduction in scope, cancellation, execution difficulty, payment postponement or payment default with regard to the orders placed with us, or disputes with customers in respect of any of the foregoing, any such adverse event in the future could materially harm our cash flow position and income.

Further, we operate in highly competitive markets in relation to our products where it is difficult to predict whether and when we will receive such awards. As a result, our results of operations can fluctuate from quarter to quarter and year to year depending on whether and when such orders are awarded to us and the commencement and progress of work under the orders placed.

For further details of our business, please refer chapter titled "Business Overview" beginning on Page 81 of this Prospectus.

5. *Failure to manage our inventory could have an adverse effect on our net sales, profitability, cash flow and liquidity.*

The results of operations of our business are dependent on our ability to effectively manage our inventory for job work purpose and stocks of semi-finished products. To effectively manage our inventory, we must be able to accurately estimate customer demand and supply requirements and purchase new inventory accordingly. If our management has misjudged expected customer demand it could adversely impact the results by causing either a shortage of products or an accumulation of excess inventory. Further, if we fail to sell the inventory we purchase, we may be required to write-down our inventory or pay our suppliers without new purchases, or create additional vendor financing, which could have an adverse impact on our income and cash flows. We estimate our sales based on the demand and requirements and also on the customer specifications.

In addition, disruptions to the delivery of products to our warehouse or customer may occur for reasons such as poor handling, transportation bottlenecks, or labour strikes, which could lead to delayed or lost deliveries or damaged products and disrupt supply of these products. If we over-stock inventory, our capital requirements will increase and we will incur additional financing costs. If we under-stock inventory, our ability to meet customer demand and our operating results may be adversely affected. Any mismatch between our planning and actual consumer consumption could lead to potential excess inventory or out-of-stock situations, either of which could have an adverse effect on our business, financial condition and results of operation.

For further details of our business, please refer chapter titled "Business Overview" beginning on Page 81 of this Prospectus.

6. *Our marketing and advertising campaigns may not be successful in increasing the popularity of our products. If our marketing initiatives are not effective, this may adversely affect our business.*

Our revenues are influenced by marketing and advertising. We rely to a large extent on our senior management's experience in defining our marketing and advertising programmes. If our senior management leads us to adopt unsuccessful marketing and advertising campaigns, we may fail to attract new customers and retain existing customers. If our marketing and advertising programmes are unsuccessful, our results of operations could be materially adversely affected. Further, our Company advertised and sale its products through online portal i.e. Indiamart, Trade India, Exporter India etc., any negative marketing over the portals through reviews of our customer may impact our sales and business operation of our Company.

In addition, increased spending by our competitors on advertising and promotion could adversely affect our results of operations and financial condition. Moreover, a material decrease in our funds earmarked for advertising or an ineffective advertising campaign relative to that of our competitors, could also adversely affect our business.

For further details of our business, please refer chapter titled "Business Overview" beginning on Page 81 of this Prospectus.

7. *The property used by the Company for the purpose of its operations is not owned by us. Any termination of the relevant lease or leave and license agreement in connection with such property or our failure to renew the same could adversely affect our operations.*

We currently operate our registered office, located at 121, Mahaveer Nagar, Jain Colony, Jodhpur- 342001, Rajasthan, India, warehouse and processing unit located at Plot No 18-19, Moti Nagar, Sangariya, Khasra Number 184, Jodhpur – 342013, Rajasthan, India and H-258, Boranada industrial park, Boranada , Jodhpur- 342012, Rajasthan, India which are not owned by us. We have obtained this property on leave and license basis from our director and other parties. Periodic renewals of such lease may increase

our costs, since it is subject to rent escalation. Any termination of the lease and/or rental deed in connection with this properties or our failure to renew the same, and upon favourable conditions, in a timely manner or at all could adversely affect our operations. For details regarding properties taken on lease refer the Section titled —Properties – “Business Overview” beginning on page no. 81 of this Prospectus.

8. *Heavy dependence on our Promoter for the continued success of our business through his continuing services, strategic guidance and support.*

We are heavily dependent upon the continued services of our Promoter, along with support of our management team for the continuous success and growth of our organization. Our promoter Mr. Hitesh Karnawat is responsible for the execution of our day-to-day business affairs. Also prior to the incorporation and acquisition of the business he was running handicrafts business under his proprietorship concern which have been acquired by our Company. The loss of our Promoter or failure to recruit suitable or comparable replacements could have an adverse effect on our business operations and growth strategies.

For Details of our Promoter, please refer chapter titled “Our Promoter and Promoter Group” beginning on Page 116 of this Prospectus.

9. *Our operating results could be adversely affected by weakening of economic conditions due to previous lock-down in all parts of India and other parts of world & other situation due to pandemic covid-19.*

Our overall performance depends in part on the economic conditions of India. Certain economies have experienced periods of downturn due to the present situation prevailing in India and outside India due to pandemic disease of Covid-19 which impact financial markets, concerns regarding the stability and viability of major financial institutions, declines in gross domestic product, and increases in unemployment and volatility in commodity prices and worldwide stock markets, and excessive government debt. The pandemic disease has adversely effected the furniture and handicraft business as our furniture is majorly for restaurants and offices which was closed due to lock down in all parts of India.

Moreover, the instability in the global economy affects countries in different ways, at different times and with varying severity, which makes the impact to our business unforeseeable and indeterminate. Any of these events, as well as a general weakening of, or declining corporate confidence in the global economy, or a curtailment in government or customer spending could delay or decrease our revenues and therefore have a material adverse effect on our business, operating results and financial condition.

10. *We do not have any long-term agreement or contract for supply of semi-finished products & raw material. consequently, are exposed to price and supply fluctuations.*

We are, to a major extent, dependent on external suppliers for our material and we do not have any long-term supply agreements or commitments in relation to the same. Consequently, we are exposed to price and supply fluctuations in semi-finished furniture including raw material, and these fluctuations may adversely affect our ability to obtain orders and/or to execute them in a timely manner, which would have a material adverse effect on our business, results of operations and financial condition.

In case of non-availability of semi-finished furniture and raw material on favourable terms we may have to procure the same at the terms and conditions prevalent at that point. This will result in reducing our revenues by a considerable amount due to shortage of material or due to inability to procure the same. Further, unfavourable terms of materials may also force us to reduce the scale of our operations resulting in a down-sizing of our overall business. We may have to put on hold any expansion plans and our business will be adversely affected.

For details of our material, please refer section titled “Business Overview” beginning on Page 81 of this Prospectus.

11. *We have not yet applied for the registration of our logo. If we fail to obtain registration our brand building efforts may be hampered which might lead to adverse effect on our business.*

Our Company is currently using the logo which is not yet registered in the name of our Company neither we have made any application for the registration of the trademark with the respective authorities. If we are unable to get the same registered with the trademark authorities then, our Company may not be able to successfully enforce or protect our intellectual property rights and obtain statutory protections available under the Trademarks Act, 1999, as otherwise available for registered trademarks in future could have a material adverse effect on our business and goodwill, which in turn could adversely affect our results of operations.

Further our Company does not own the domain name "www.handicraftsvillage.com" as a result of which we might be required to discontinue its usage at any point of time in future. Although we have executed assignment agreement with our Promoter for use of such domain, if such assignment will withdraw or cancel by our Promoter in future. This might adversely affect our business and goodwill. For further details, please refer to section titled "Government and Other Approvals" on page 159 of this Prospectus.

12. Our Company has acquired sole proprietorship firm of our Promoter I.e. M/s Handicrafts Village after its incorporation vide business transfer agreement dated June 01, 2021. Any future acquisition of other businesses could result in operating difficulties, integration issues and other adverse consequences due to our limited past experience in businesses.

Our Company was originally incorporated on March 08, 2021 as "Shashwat Furnishing Solutions Private Limited" under the provisions of the Companies Act, 2013 with the Registrar of Companies, Central Registration Centre. Subsequently, our Company has acquired the entire business with the assets and liabilities of M/s Handicrafts Village, sole proprietorship concern of our Promoter Mr. Hitesh Karnawat vide Business Transfer Agreement dated June 01, 2021. Further, our Company was converted into Public Limited Company and consequently name of company was changed from "Shashwat Furnishing Solutions Private Limited" to "Shashwat Furnishing Solutions Limited" vide Special resolution passed by the Shareholders at the Extra-Ordinary General Meeting held on August 12, 2021. and a fresh certificate of incorporation dated August 27, 2021 issued by the Registrar of Companies, Jaipur. Further, the company has applied or in some cases will apply for the transition or endorsement of the name of the Company on many of the documents, registration, bank account and other documents which are in the name of our Handicrafts Village as per the terms of business transfer agreement. Any delay in the said transition may require the company to pay any penalty or refusal from any authority of such transition or endorsement which may affect the financial position and operation of our Company.

Further any future acquisition may not be beneficial to our Company, we may have to pay a certain amount of premium to the outgoing management / shareholders for synergic benefits that we may accrue compared to valuations of those firms / businesses / companies. Our inability to identify suitable acquisition opportunities in the future, or adequately priced acquisitions, entering into agreement with such parties or obtaining the necessary financing to make such acquisitions could adversely affect our future growth.

13. If we are not successful in managing our growth, our business may be disrupted and our profitability may be reduced.

Our future growth is subject to risks arising from a rapid increase in volume, and inability to retain and recruit skilled staff. We may not grow at a rate comparable to our growth rate in the past, either in terms of income or profit.

Our future growth may place significant demands on our management and operations and require us to continuously evolve and improve our financial, operational and other internal controls within our Company. In particular, continued expansion may pose challenges in:

- maintaining high levels of quality control and cost-effective processing, and customer satisfaction;
- recruiting, training and retaining sufficient skilled management and technical personnel for our business process;
- developing and improving our internal administrative infrastructure, particularly our financial,
- operational, communications, internal control and other internal systems;
- making accurate assessments of the resources;
- adhering to the standards of health, safety and environment and quality and process execution to meet clients' expectations;
- strengthening internal control and ensuring compliance with legal and contractual obligations;
- Managing relationships with customers, suppliers and lenders.

If we are not successful in managing our growth, our business may be disrupted and profitability may be reduced. Our business, prospects, financial condition and results of operations may be adversely affected.

14. Our Company has not taken any insurance which may expose our company from potential losses to which we may be subject to risk and this may have a material effect on our business and financial condition.

Our Company has not taken any insurance policy related to our registered office, warehouse, processing unit and for keyman Insurance policy of our Company. Any unforeseen situation or any liability will not compensate due to absence of Insurance policy. Further, our business involves risks which may adversely affect our profitability, including failure of systems and employee frauds. We cannot assure you that the operation of our business will not be affected by any of the incidents listed above or by other factors.

In addition, in the future, we may not be able to maintain insurance of the types or at levels which we deem necessary or adequate or at rates which we consider reasonable. The occurrence of an event for which we are not adequately or sufficiently insured or the successful assertion of one or more large claims against us that exceed available insurance coverage, or changes in our insurance

policies (including premium increases or the imposition of large deductible or co-insurance requirements), could have an effect on our business, results of operations, financial condition and cash flows.

15. We face competition in our business from organized and unorganized players, which may adversely affect our business operation and financial condition.

The Jodhpur, Rajasthan is one of the main places for the Handicraft Industry including furniture products and this has resulted in huge competitive pressures. We may have to confront pressures in respect of pricing; product quality etc. from the clients and such pressures may put strain on our profit margins which may consequently affect the financial position of our Company. Competition emerges not only from the organized sector but also from the unorganized sector and from both small and big players. Our inability to compete with this intense competition; local, national and international will have material adverse impact on our Company's financial position.

For further details of our business, please refer chapter titled "Business Overview" beginning on Page 81 of this Prospectus.

16. We have been recently incorporated as company and any non-compliance with the provisions of Companies Act, 2013 may attract penalties against our Company which could impact our financial and operational performance and reputation.

Our Company has been recently incorporated to acquire the entire business with the assets and liabilities of M/s Handicrafts Village, sole proprietorship concern of our Promoter Mr. Hitesh Karnawat vide Business Transfer Agreement dated June 01, 2021. The provisions of the Companies Act were not applicable to us earlier. However, consequent to the aforesaid incorporation, our Company is subject to compliance of various provisions of the Companies Act such as repayment of amounts falling under the definition of deposits under the Companies Act, 2013, prior approval for entering into related party transactions, filing of relevant RoC forms, rules pertaining to declaration of dividends etc.

Though our Company will endeavour to take all possible steps comply with the provisions of the Companies Act, but in case of our inability to do so or in case of any delay, we may be subject to penal action from the appropriate authorities which may have an adverse effect on our financial and operational performance and reputation

17. We are dependent on our key managerial personnel, and the loss of or our inability to retain such persons could adversely affect our cash flows, business, results of operations and financial condition.

Our performance depends largely on the efforts and abilities of our key managerial personnel. Their input and experience are invaluable for the development of our business and the operations and the strategic directions taken by us. We cannot assure you that we will be able to retain these key managerial personnel or find adequate replacements in timely manner, or at all, should they choose to discontinue their employment with us. We may need a long period of time to hire and train replacement personnel when key managerial personnel terminate their employment with us. We believe that competition for qualified managerial personnel with relevant expertise in India is intense due to scarcity of qualified individuals in the industry in which we operate. The retirement or resignation of any of our key managerial personnel may materially and adversely impact our business, results of operations and financial condition.

In addition, we cannot assure you that our relations with our contracted labour shall remain cordial at all times and that contracted labour will not undertake or participate in strikes, work stoppages or other industrial actions in the future. Any labour disruptions may affect our operations, thereby adversely affecting our business, financial condition and results of operations.

18. Our failure to adapt to technological developments or industry trends could affect the performance and features of our products, and reduce our attractiveness to our customers.

As our operations grow in scope and size, whether through offering of new products or expansion into new markets, we must continuously improve, upgrade, adapt and expand our systems and infrastructure to offer our customers enhanced products, features and functionality ahead of rapidly evolving customer demands, while maintaining the reliability and integrity of our systems and infrastructure in a cost-efficient and competitive manner.

The systems, infrastructure and technologies we currently employ may become obsolete or be unable to support our increased size and scale. Even if we are able to maintain, upgrade or replace our existing systems or innovate or customize and develop new technologies and systems, we may not be as quick or efficient as our competitors in upgrading or replacing our systems. We may be unable to devote adequate financial resources or obtain sufficient financing on commercially acceptable terms in time, or at all, which

may have a material adverse effect on our business, prospects, results of operation and financial condition. For further details regarding our business, please refer to chapter titled “Business Overview” beginning on Page 81 of this Prospectus.

19. Our Company does not have any listed peer companies for comparison of performance and therefore, investors must rely on their own examination of accounting ratios of our Company for the purposes of investment in the Issue.

Given our high volume of transactions, errors may be repeated or compounded before they are discovered and rectified. Our management information systems and internal control procedures may not be able to identify non-compliance or suspicious transactions in a timely manner, or at all. Where internal control weaknesses are identified, our actions may not be sufficient to fully correct such weaknesses.

In addition, several of our collection related processes are yet to be fully automated, which may increase the risk that human error, tampering or manipulation will result in losses that may be difficult to detect. As a result, we may incur expenses or suffer monetary losses, which may not be covered by our insurance policies and may result in a material effect on our business, financial condition and results of operations.

35. If there is a change in policies related to tax, duties or other such levies applicable to us, it may affect our results of operations.

We benefit from certain general tax regulations and incentives that accord favourable treatment to certain of our operations as well as for our activities. These tax benefits include income tax deductions and other taxes. For details regarding income tax deductions, please refer to the chapter "Statement of Special Tax Benefits" on page 69 of this Prospectus.

New or revised accounting policies or policies related to tax, duties or other such levies promulgated from time to time by the relevant authorities may significantly affect our results of operations. We cannot assure you that we would continue to be eligible for such lower tax rates or any other benefits. The reduction or termination of our tax incentives, or non-compliance with the conditions under which such tax incentives are made available, will increase our tax liability and affect our business prospects, results of operations and financial condition.

Therefore, although, we have maintained the profit levels and reserves, there can be no assurance that we shall have distributable funds or that we will declare dividends.

38. A slowdown in economic growth in India could have an adverse effect on our business, results of operations and financial condition.

We operate in the furniture sector of handicrafts industry in India, where consumer demand for our products is highly dependent on the general economic conditions in India. A slowdown in economic growth could affect business and personal discretionary spending levels and lead to a decrease in demand for our products for prolonged periods. Such events could lead to a reduction in our revenues.

Further, we operate in the mid-priced handicraft sector alone, and do not have presence in the luxury or upscale sectors. This makes us more susceptible to adverse changes affecting demographic and economic strata of our customers. We cannot assure you that such macroeconomic and other factors, which are beyond our control would not significantly affect demand for our products. Consequently, the occurrence of such events could have an adverse effect on our business, results of operations and financial condition.

For further details of our business, please refer chapter titled "Business Overview" beginning on Page 81 of this Prospectus.

39. Our funds requirements are based on internal management estimates, wherever possible, and have not been appraised by any bank or financial institution. Any increase in the actual deployment of funds may cause an additional burden on our finance plans. We have not entered into definitive agreements to utilize our Issue proceeds.

The fund requirement mentioned as a part of the Objects of the Issue is based on internal management estimates, wherever possible, and has not been appraised by any bank or financial institution or any external agency. These are based on current conditions and are subject to change in light of changes in external circumstances or costs or in other financial conditions, business strategy, etc. With increase in costs, our actual deployment of funds may exceed our estimates and may cause us an additional burden on our finance plans. As on the date of the Prospectus, we have not entered into any definitive agreements for implementing the Objects of the Issue.

For more information, please refer to "Objects of the Issue" on page 62 of the Prospectus.

40. Our Company's management will have flexibility in utilizing the Net Proceeds from the Issue. The deployment of the Net Proceeds from the Issue is not subject to any monitoring by any independent agency.

Our Company intends to primarily use the Net Proceeds towards working capital requirement and for general corporate purposes as described in "Objects of the Issue" on page 62 of this Prospectus. In terms of the SEBI (ICDR) Regulations, we are not required to appoint a monitoring agency since the Issue size is not in excess of Rs.100 crores. The management of our Company will have discretion to use the Net Proceeds from the Issue, and investors will be relying on the judgment of our Company's management regarding the application of the Net Proceeds from the Issue. Our Company may have to revise its management estimates from time to time and consequently its requirements may change.

Further, pursuant to Section 27 of the Companies Act 2013, any variation in the objects would require a special resolution of the Shareholders and our Promoter or controlling Shareholders will be required to provide an exit opportunity to the Shareholders of our Company who do not agree to such proposal to vary the objects, in such manner as may be prescribed in future by the SEBI.

Accordingly, prospective investors in the Issue will need to rely upon our management's judgment with respect to the use of Net Proceeds. If we are unable to enter into arrangements for utilization of Net proceeds as expected and assumed by us in a timely manner or at all, we may not be able to derive the expected benefits from the proceeds of the Issue, our business and financial results may suffer.

41. We have not identified any alternate source of raising the funds mentioned as our 'Objects of the Issue'. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.

Our Company has not identified any alternate source of funding for our working capital requirement and for general corporate purposes and hence any failure or delay on our part to mobilize the required resources or any shortfall in the Issue proceeds can adversely affect our growth plan and profitability. The delay/shortfall in receiving these proceeds could result in inadequacy of working capital or may require our Company to borrow funds on unfavourable terms, both of which scenarios may affect the business operation and financial performance of the Company.

For further details of our Object for the Issue, please refer chapter titled "Object for the Issue" beginning on Page 62 of this Prospectus.

42. Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities may differ from those that would apply to a company in another jurisdiction. Investors may have more difficulty in asserting their rights as shareholders in an Indian company than as shareholder of a corporation in another jurisdiction. Shareholders' rights under Indian law may not be as extensive as shareholders' rights under the laws of other jurisdictions. Under the Companies Act, prior to issuance of any new equity shares, a public limited company incorporated under Indian law must offer its equity shareholders pre-emptive rights to subscribe to a proportionate number of equity shares to maintain existing ownership, unless such pre-emptive rights are waived by a special resolution by a three-fourths majority of the equity shareholders voting on such resolution. If you are a foreign investor and the law of the foreign jurisdiction that you are in does not permit the exercise of such pre-emptive rights without our filing an offering document or registration statement with the applicable authority in such foreign jurisdiction, you will be unable to exercise such pre-emptive rights, unless we make such a filing. If we elect not to file an offering document or a registration statement, the new securities may be issued to a custodian, who may sell the securities for your benefit. The value such custodian receives on the sale of any such securities and the related transaction costs cannot be predicted. To the extent that you are unable to exercise pre-emptive rights granted in respect of our Equity Shares, your proportional interest in our Company would decline.

43. Our Equity Shares have never been publicly traded and may experience price and volume fluctuations following the completion of the Issue, an active trading market for the Equity Shares may not develop, the price of our Equity Shares may be volatile and you may be unable to resell your Equity Shares at or above the Issue Price or at all.

Prior to the Issue, there has been no public market for our Equity Shares, and an active trading market may not develop or be sustained after the Issue. Listing and quotation does not guarantee that a market for our Equity Shares will develop or, if developed, the liquidity of such market for the Equity Shares. The Issue Price of the Equity Shares is determined considering various financial factors of the Company and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. There has been significant volatility in the Indian stock markets in the recent past, and the trading price of our Equity Shares after this Issue could fluctuate significantly as a result of market volatility or due to various internal or external risks, including but not limited to those described in this Prospectus. A decrease in the market price of our Equity Shares could cause you to lose some or all of your investment.

44. Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see "Dividend Policy" on page 120 of this Prospectus.

45. The Issue Price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the Issue Price and you may not be able to sell your Equity Shares at or above the Issue Price.

The Issue Price of our Equity Shares has been determined on the basis of the Fixed Price Issue. This price is based on numerous factors. For further information, see “Basis for Issue Price” beginning on page 67 of this Prospectus. This issue price may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price are:

- Quarterly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- Domestic and international economic, legal and regulatory factors unrelated to our performance.

46. A third party could be prevented from acquiring control of our Company because of anti-takeover provisions under Indian law.

There are provisions in Indian law that may delay, deter or prevent a future takeover or change in control of our Company, even if a change in control would result in the purchase of your Equity Shares at a premium to the market price or would otherwise be beneficial to you. Such provisions may discourage or prevent certain types of transactions involving actual or threatened change in control of us. Under the takeover regulations in India, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to its stakeholders, it is possible that such a takeover would not be attempted or consummated because of the Indian takeover regulations.

47. The average cost of acquisition of Equity Shares by our Promoter could be lower than the Issue Price.

Our Promoter’s average cost of acquisition of Equity Shares in our Company may be lower than the Issue Price as may be decided by the Company, in consultation with the LM. For further details regarding average cost of acquisition of Equity Shares by our Promoter in our Company and build-up of Equity Shares by our Promoter in our Company, please refer to the chapters “Capital Structure” beginning on page 51 of this Prospectus.

48. The requirements of being a listed company may strain our resources and distract management.

We have no experience as a listed company and have not been subjected to the increased scrutiny of our affairs by shareholders, regulators and the public that is associated with being a listed company. As a listed company, we will incur additional legal, accounting, corporate governance and other expenses that we did not incur as an unlisted company. We will be subject to the listing agreements with the Stock Exchanges and compliances of SEBI Listing Regulation, 2015 which would require us to file audited annual and unaudited semi-annual and limited review reports with respect to our business and financial condition. If we delay making such filings, we may fail to satisfy our reporting obligations and/or we may not be able to readily determine and accordingly report any changes in our results of operations as timely as other listed companies.

As a listed company, we will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions to support the existence of effective disclosure controls and procedures, internal control over financial reporting and additional compliance requirements under the Companies Act, 2013. In order to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, significant resources and management oversight will be required. As a result, management’s attention may be diverted from other business concerns, which could adversely affect our business, prospects, financial condition and results of operations. In addition, we may need to hire additional legal and accounting staff with appropriate listed company experience and technical accounting knowledge and we cannot assure you that we will be able to do so in a timely manner.

49. *There is no guarantee that the Equity Shares issued pursuant to the Issue will be listed on the SME Platform of BSE Limited (BSE SME) in a timely manner or at all.*

In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Issue will not be granted until after the Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuance of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the SME Platform of BSE Limited (BSE SME). Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

50. *You will not be able to sell immediately on the Stock Exchanges any of the Equity Shares you purchase in the Issue.*

The Equity Shares will be listed on the SME Platform of BSE Limited (BSE SME). Pursuant to Indian regulations, certain actions must be completed before the Equity Shares can be listed and trading may commence. Upon receipt of final approval from the Stock Exchanges, trading in the Equity Shares is to commence within six (6) working days of the date of closure of the Issue or such other time as may be prescribed by SEBI. We cannot assure that the Equity Shares will be credited to investors' demat accounts, or that trading in the Equity Shares will commence, within the time period prescribed by law. Further, there can be no assurance that the Equity Shares to be Allotted pursuant to this Issue will be listed on the Stock Exchanges in a timely manner or at all.

51. *We may require further equity issuance, which will lead to dilution of equity and may affect the market price of our Equity Shares or additional funds through incurring debt to satisfy our capital needs, which we may not be able to procure and any future equity offerings by us.*

Our growth is dependent on having a strong balance sheet to support our activities. In addition to the IPO Proceeds and our internally generated cash flow, we may need other sources of financing to meet our capital needs which may include entering into new debt facilities with lending institutions or raising additional equity in the capital markets. We may need to raise additional capital from time to time, dependent on business conditions. The factors that would require us to raise additional capital could be business growth beyond what the current balance sheet can sustain; additional capital requirements imposed due to changes in regulatory regime or significant depletion in our existing capital base due to unusual operating losses. Any fresh issue of shares or convertible securities would dilute existing holders, and such issuance may not be done at terms and conditions, which are favourable to the then existing shareholders of our Company. If our Company decides to raise additional funds through the incurrence of debt, our interest obligations will increase, and we may be subject to additional covenants, which could further limit our ability to access cash flows from our operations. Such financings could cause our debt-to-equity ratio to increase or require us to create charges or liens on our assets in favour of lenders. We cannot assure you that we will be able to secure adequate financing in the future on acceptable terms, in time, or at all. Our failure to obtain sufficient financing could result in the delay or abandonment of our expansion plans. Our business and future results of operations may be affected if we are unable to implement our expansion strategy.

Any future issuance of Equity Shares by our Company may dilute shareholding of investors in our Company; and hence affect the trading price of our Company's Equity Shares and its ability to raise capital through an issue of its securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of our Company's Equity Shares. Additionally the disposal, pledge or encumbrance of Equity Shares by any of our Company's major shareholders, or the perception that such transactions may occur may affect the trading price of the Equity Shares. No assurance may be given that our Company will not issue Equity Shares or that such shareholders will not dispose of, pledge or encumber their Equity Shares in the future.

52. *We have in the last 12 months issued Equity Shares at a price that may be at lower than the Issue Price.*

In the last 12 months we may have issued fresh Equity Shares to the promoter and promoter group of our Company which are as follows: -

- Preferential issue of Equity Shares in consideration of business acquisition of M/s Handicrafts Village dated June 01, 2021 issuing 20,000 Equity shares of Rs 10 each at a premium of Rs 90.00 per equity share.
- Right Issue of Equity Shares dated July 15, 2021 issuing 55,400 Equity Shares of Rs.10 each at a premium of Rs 90.00 per equity share.
- Right Issue of Equity Shares dated July 30, 2021 issuing 94,600 Equity Shares of Rs.10 each at a premium of Rs 90.00 per equity share.
- Bonus Issue of Equity Shares dated July 31, 2021 issuing 13,50,000 Equity shares face value Rs 10/- per Equity Share

The Equity Shares allotted to investors pursuant to this Issue may be priced significantly higher due to various reasons including better performance by the Company, better economic conditions and passage of time.

For Further details of equity shares issued, please refer to the chapter titled “Capital Structure” beginning on page 51 of the Prospectus.

53. We will continue to be controlled by our Promoter and Promoter Group after the listing of the Equity Shares in the Issue.

Upon successful completion of the Issue, our Promoter and Promoter Group will collectively control, directly or indirectly, approximately 73.28% of our outstanding Equity Shares (assuming full subscription to the Issue). As a result, our Promoter and Promoter Group will continue to have the ability to exercise significant control over our Company and all matters requiring shareholder approval, including election of directors, our business strategy and policies, and approval of significant corporate transactions such as mergers and business combinations. The extent of their shareholding in our Company may also have the effect of delaying, preventing or deterring a change in control of our Company, even if such a transaction may be beneficial to the other shareholders. The interests of our Promoter and Promoter Group as controlling shareholders of our Company could be in conflict with the interests of our other shareholders. We cannot assure you that our Promoter and Promoter Group will act to resolve any conflicts of interest in favour of our Company or the other shareholders. Further any instance of disinvestments of Equity Shares by our Promoter or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares.

For Further details of Capital Build-up, please refer to the chapter titled “Capital Structure” beginning on page 51 of the Prospectus.

EXTERNAL RISK FACTORS

54. If there is any change in tax laws or regulations, or their interpretation, such changes may significantly affect our financial statements for the current and future years, which may have a material adverse effect on our financial position, business, and results of operations.

Any change in tax laws, including for indirect taxes, may result in us no longer being able to enjoy the existing exemptions / benefits, available to us, which could adversely impact our profitability. If there is an upward revision to the currently applicable special corporate tax rates, our tax burden will increase. Other benefits such as inapplicability of minimum alternate tax rates, as applicable to other corporates, exemption for income earned by way of dividend from investments in other domestic companies and units of mutual funds.

The Government has announced the interim union budget for the Financial Year 2021. Further, the Finance Act, 2021 (the “Finance Act”) has made various amendments. Further, the Government has also announced the union budget for Financial Year 2021, pursuant to which the Finance (No.2) Bill, 2020 proposes to introduce the various amendments. As such, there is no certainty on the impact that the Finance (No. 2) Bill, 2020 may have on our business and operations or on the industry in which we operate.

We cannot predict whether any tax laws or regulations impacting loans or financial products will be enacted, the nature and impact of the specific terms of any such laws or regulations will be or whether, if at all, any laws or regulations would have a material adverse effect business, results of operations and financial condition.

55. Changing laws, rules and regulations and legal uncertainties, including adverse application of corporate and tax laws, may adversely affect our business, results of operations and prospects.

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy. For example, the Government of India implemented a comprehensive national goods and services tax (“GST”) regime with effect from July 1, 2017, that combined multiple taxes and levies by the Central and State Governments into a unified tax structure. Our business and financial performance could be adversely affected by any unexpected or onerous requirements or regulations resulting from the introduction of GST or any changes in laws or interpretation of existing laws, or the promulgation of new laws, rules and regulations relating to GST, as it is implemented. The Government has enacted the GAAR which have come into effect from April 1, 2017.

The Government of India has announced the union budget for Fiscal 2021 and the Ministry of Finance has notified the Finance Act, 2021 (“Finance Act”) on March 28, 2021, pursuant to assent received from the President, and the Finance Act will come into operation with effect from July 1, 2020 There is no certainty on the impact that the Finance Act may have on our business and operations or on the industry in which we operate. We cannot predict whether any amendments made pursuant to the Finance Act

would have a material adverse effect on our business, financial condition and results of operations. Unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals. Any such decisions in future or any further changes in interpretation of laws may have an impact on our results of operations. Further, a draft of the Personal Data Protection Bill, 2019 (“**Bill**”) has been introduced before the Lok Sabha on December 11, 2019, which is currently being referred to a joint parliamentary committee by the Parliament. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current businesses or restrict our ability to grow our businesses in the future.

56. Our business is substantially affected by prevailing economic conditions in India.

We perform all of our business activities in India, and the predominant portions of our customers are Indian nationals. As a result, we are highly dependent on prevailing economic conditions in India and our results of operation are significantly affected by factors influencing the Indian economy. Factors that may adversely affect the Indian economy, and hence our results of operations, include:

- any increase in Indian interest rates or inflation;
- any scarcity of credit or other financing in India, resulting in an adverse impact on economic conditions in India and scarcity of financing of our industry and the purchase thereof by our customers;
- prevailing income conditions among Indian consumers and Indian corporations;
- changes in India’s present tax, trade, fiscal or monetary policies;
- natural disasters, political instability, communal disturbances, riots, civil unrest, terrorism or military conflict in India or in countries in the region or globally, including in India’s various neighboring countries;
- prevailing national, regional or global economic conditions, including in India’s principal export markets; and
- other significant regulatory or economic developments in or affecting India.

57. Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting our industry, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

58. Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

59. Natural calamities could have a negative impact on the Indian economy and cause our Company’s business to suffer.

India has experienced natural calamities such as earthquakes, tsunamis, floods etc. In recent years, the extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

60. *Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.*

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

61. *Our business and activities may be further regulated by the Competition Act and any adverse application or interpretation of the Competition Act could materially and adversely affect our business, financial condition and results of operations.*

The Competition Act seeks to prevent business practices that have or are likely to have an appreciable adverse effect on competition in India and has established the Competition Commission of India (the "CCI"). Under the Competition Act, any arrangement, understanding or action, whether formal or informal, which has or is likely to have an appreciable adverse effect on competition is void and attracts substantial penalties. Any agreement among competitors which, directly or indirectly, determines purchase or sale prices, results in bid rigging or collusive bidding, limits or controls the production, supply or distribution of goods and services, or shares the market or source of production or providing of services by way of allocation of geographical area or type of goods or services or number of customers in the relevant market or in any other similar way, is presumed to have an appreciable adverse effect on competition and shall be void. Further, the Competition Act prohibits the abuse of a dominant position by any enterprise. If it is proven that a breach of the Competition Act committed by a company took place with the consent or connivance or is attributable to any neglect on the part of, any director, manager, secretary etc., that person shall be guilty of the breach themselves and may be punished as an individual. If we, or any of our employees are penalized under the Competition Act, our business may be adversely affected. Further, the Competition Act also regulates combinations and requires approval of the CCI for effecting any acquisition of shares, voting rights, assets or control or mergers or amalgamations above the prescribed asset and turnover based thresholds.

On March 4, 2011, the Government of India notified and brought into force new provisions under the Competition Act in relation to combined entities (the "Combination Regulation Provisions"), which came into effect from June 1, 2011. The Combination Regulation Provisions require that any acquisition of shares, voting rights, assets or control or mergers or amalgamations, which cross the prescribed asset and turnover based thresholds, must be notified to and preapproved by the CCI. In addition, on May 11, 2011, the CCI issued the final Competition Commission of India (Procedure in regard to the transaction of business relating to combinations) Regulations, 2011 (as amended). These regulations, as amended, set out the mechanism for the implementation of the Combination Regulation Provisions under the Competition Act.

62. *Companies in India are required to prepare financial statements under the new Indian Accounting Standards. In addition, all income-tax assessee in India will be required to follow the Income Computation and Disclosure Standards.*

The Ministry of Corporate Affairs ("MCA"), Government of India, has through notification dated February 16, 2015 issued the Indian Accounting Standards Rules, 2015 ("Ind AS") which have come into effect from April 1, 2015 and are applicable to companies which fulfill certain conditions. Further, there can be no assurance that the adoption of Ind AS will not affect our reported results of operations or financial condition. Any of these factors relating to the use of Ind AS may adversely affect our financial condition and results of operations.

Further, the Ministry of Finance, Government of India has issued a notification dated September 29, 2016 notifying Income Computation and Disclosure Standards ("ICDS"), thereby creating a new framework for computation of taxable income. The ICDS shall apply from the assessment year 2017-2018 and subsequent years. The adoption of ICDS is expected to significantly alter the way companies compute their taxable income, as ICDS deviates from several concepts that are followed under general accounting standards, including Indian GAAP and Ind AS. In addition, ICDS shall be applicable for the computation of income for tax purposes but shall not be applicable for the computation of income for minimum alternate tax. There can be no assurance that the adoption of ICDS will not adversely affect our business, results of operations and financial condition.

63. *Significant differences exist between Indian GAAP and other accounting principles, such as U.S. GAAP and IFRS, which investors may be more familiar with and may consider material to their assessment of our financial condition.*

Our financial statements are prepared and presented in conformity with Indian GAAP. No attempt has been made to reconcile any of the information given in this document to any other principles or to base it on any other standards. Indian GAAP differs in certain significant respects from IFRS, U.S. GAAP and other accounting principles with which prospective investors may be familiar in

other countries. If our financial statements were to be prepared in accordance with such other accounting principles, our results of operations, cash flows and financial position may be substantially different. Prospective investors should review the accounting policies applied in the preparation of our financial statements, and consult their own professional advisers for an understanding of the differences between these accounting principles and those with which they may be more familiar.

GLOBAL OUTLOOK

The pandemic has taken a turn for the worse in some parts of the world since the release of the April 2021 WEO. Meanwhile, a speedy vaccine rollout has helped bring down caseloads quickly in other regions. Economies are diverging even further, influenced by differences in the pace of vaccine rollout and policy support. However, smooth and durable recoveries are not assured even in places where infections are seemingly under control.

Vaccines: Close to 40 percent of the population in advanced economies has been fully vaccinated, compared with less than half that number in emerging market economies and a tiny fraction in low-income countries. Vaccine access is the principal fault line along which the global recovery splits into two blocs: those that can look forward to further normalization of activity later this year (almost all advanced economies) and those that will still contend with prospects of resurgent infections and rising COVID death tolls. Sub-Saharan Africa is now in the grip of a third wave, parts of Latin America continue to see high levels of new deaths, and concerns still remain about the situation in parts of South and Southeast Asia.

Figure 1. Vaccine Courses
(Percent of population)

Policy support: Further fueling the divergence is the continued impact of sizable fiscal support in the United States and new measures in other advanced economies (including France, Germany, Italy, Korea, and the United Kingdom; see the Fiscal Monitor Database of Country Fiscal Measures in Response to the COVID-19 Pandemic). Many emerging market and developing economies on the other hand are looking to rebuild fiscal buffers. Some, including Brazil, Hungary, Mexico, Russia, and Turkey, have also begun normalizing monetary policy to head off upward price pressures.

A patchy recovery shaped by new variants, aftershocks, and supply-demand mismatches: First-quarter GDP outturns overall surprised on the upside, notably in Asia and Latin America, while renewed lockdowns in Europe led to downside surprises. High-frequency data in the second quarter indicate the recovery is widening beyond manufacturing to services, especially in economies where infections are under better control.

New variants: Steady recovery is not assured anywhere so long as segments of the population remain susceptible to the virus and its mutations. Recovery has been set back severely in countries that experienced renewed waves— notably India. The United Kingdom has had to delay the final step of its economic reopening because of the spread of the delta variant, even as the vaccine rollout had helped bring down hospitalizations. China’s Guangdong province imposed mobility restrictions in May following an outbreak after months of minimal new infections. Similarly, Australia reintroduced targeted lockdowns in June.

Aftershocks: The unprecedented convulsion in the global economy last year continues to trigger aftershocks that weigh on the recovery in some parts of the world. Empty shipping containers have been stranded in lessfrequent ports alongside shortages on busier routes, contributing to increased delivery times for inputs reported in purchasing managers’ surveys

Figure 2. Global Activity Indicators
(Three-month moving average, annualized percent change; deviations from 50 for PMIs, unless noted otherwise)

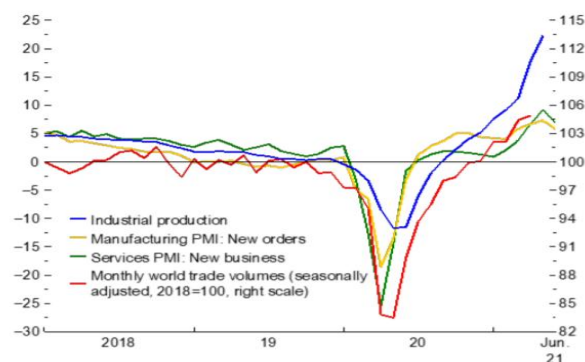

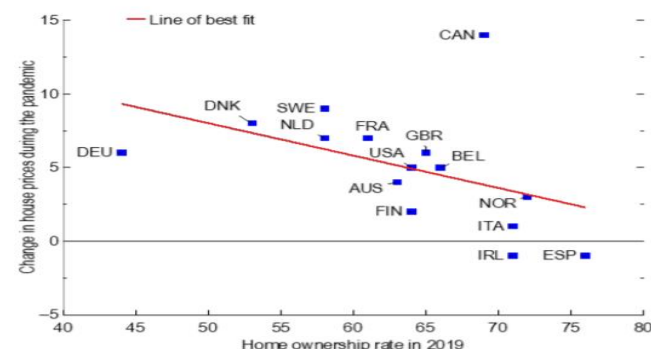

Figure 3. House Price Acceleration and Pre-Pandemic Home Ownership Rates
(Percent)

Supply-demand mismatches: These likely transitory shortages have occurred amid shifting spending patterns, for instance toward housing and work-from-home electronics. Consistent with pandemic-induced rising demand for owner-occupied housing (possibly supported in some cases by generally low mortgage rates), house prices have risen more in places with lower pre-pandemic home ownership rates. These shifting spending patterns and supply disruptions have generated shortages of components, such as microchips, creating bottlenecks for example in the automotive sector.

Inflation pressure: The current spikes in annual inflation in part are the result of mechanical base effects from last year’s low commodity prices. Moreover, prices have increased because of the likely transient supply-demand mismatches discussed above— container freight indices for example have risen significantly since mid-2020.

Amid these challenges, financial conditions have remained generally supportive. Financial market sentiment has remained positive on balance given the expected global recovery (see Box 1). The overall picture from the most recent WEO has not changed materially despite a recent bout of volatility: buoyant equity markets, tight credit spreads, and healthy flows into emerging market hard currency funds. This constellation of asset prices continues to provide a generally positive lift to the baseline global outlook.

Divergent Recoveries Expected to Continue into 2022

The baseline forecast reflects the influences of the forces discussed earlier and rests on the following key assumptions:

Vaccines, therapies, and the pandemic: Local transmission of the virus is expected to be brought to low levels everywhere by the end of 2022 through a combination of better-targeted precautions and improved access to vaccines and therapies. Advanced economies are generally on track to achieve broad vaccine availability by summer 2021. Some emerging markets are assumed to get to that point later this year. Most countries are assumed to gain broad access by the end of 2022. Some countries will get to low levels of local transmission sooner than others depending on country-specific circumstances. The baseline nonetheless assumes the possibility of additional waves before vaccines are widely available.

Fiscal policy: The forecast assumes additional fiscal support in the United States in line with the overall cumulative size of the current administration’s proposed American Jobs Plan and American Families Plan. The baseline also incorporates expected Next Generation EU grants and loans into the forecasts for those economies. As noted in Box 2, fiscal deficits in most emerging markets are projected to decline in 2021.

Monetary policy: Major central banks are assumed to leave policy rates unchanged throughout the forecast horizon (end of 2022). Some emerging market central banks have begun reducing support, and more are expected to follow suit later in 2021.

Rising commodity prices: Commodity prices are expected to increase at a significantly faster pace than assumed in the April 2021 WEO. Amid the strengthening global recovery, oil prices are expected to rise close to 60 percent above their low base in 2020. Non-oil commodity prices are expected to rise close to 30 percent above 2020 levels, reflecting particularly strong increases in the price of metals and food.

Handoff to private activity: The buildup of excess household savings over the past five quarters of subdued contact-intensive activity and travel is a key aspect of the unprecedented downturn and rebound. As seen in Figure 4, savings tended to accumulate more in countries with larger above-the-line fiscal support to households, which buffered disposable incomes. As economies reopen, private spending is expected to pick up, financed in part by these savings. The speed at which these savings are drawn down will influence the pace of the recovery and inflation pressure. The forecast assumes a smooth handoff from extraordinary policy support to private-activity-led growth, with a gradual drawdown of excess savings. IMF staff analysis suggests a more substantial accumulation of savings in places with relatively lower pre-pandemic household saving rates, indicating some reversion to the mean and the rebuilding of household net worth, which would weigh on the immediate spending impulse.

Figure 4. Household Savings and Government Support during the Pandemic (Percent)

Global growth: The global economy is projected to grow 6.0 percent in 2021 and 4.9 percent in 2022 (Table 1). Although the 2021 forecast is unchanged from April, there are offsetting revisions across advanced economies and emerging market and developing economies reflecting differences in pandemic developments and policy shifts. The 0.5 percentage point upward revision for 2022 largely reflects anticipated additional fiscal support in the United States, with associated spillovers to the global economy.

Advanced economies: Growth prospects have been revised up for 2021–22 from expected further normalization in the second half of 2021 as vaccine rollout proceeds and with additional fiscal support. The significantly improved outlook for the US economy derives from the impact of anticipated legislation boosting infrastructure investment and strengthening the social safety net in the second half of 2021. The additional support is expected to lift 2021 US GDP growth by 0.3 percentage point and 2022 growth by 1.1 percentage points, with positive spillovers to trading partners. This shift is partially offset by the forecast downgrade in 2021 for Japan, reflecting tighter restrictions in the first half of the year as caseloads picked up. Japan is anticipated to see a stronger rebound in the second half of 2021, as vaccination proceeds and the economy fully reopens, improving its growth forecast for 2022. Similar strengthening momentum is expected in France, Germany, Italy, and Spain later this year, carrying over into 2022.

Emerging market and developing economies: The forecast for the group is revised down 0.4 percentage point in 2021 compared with the April WEO, largely because of growth markdowns for emerging Asian economies. Growth prospects in India have been downgraded following the severe second COVID wave during March–May and expected slow recovery in confidence from that setback. Similar dynamics are at work in the ASEAN-5 group (Indonesia, Malaysia, Philippines, Thailand, Vietnam), where recent infection waves are causing a drag on activity. Meanwhile, China’s 2021 forecast is revised down 0.3 percentage point on a scaling back of public investment and overall fiscal support. Growth forecasts for other regions have generally been revised up for 2021, largely reflecting the stronger-than anticipated outturns in the first quarter. The forecast upgrade for Latin America and the Caribbean results mostly from upward revisions in Brazil and Mexico, reflecting better-than expected first quarter outturns, favorable spillovers to Mexico from the improved outlook for the United States, and booming terms of trade in Brazil. Projections are revised up for the Middle East and Central Asia due to robust activity in some countries (such as Morocco and Pakistan), partially offset by downgrades of some others. In Saudi Arabia, the non-oil growth projection has been revised up, but the overall GDP forecast has

been downgraded relative to the April WEO on account of subdued oil production below the OPEC+ (Organization of the Petroleum Exporting Countries, including Russia and other non-OPEC oil exporters) quota earlier in the year. The 2021 forecast for sub-Saharan Africa is unchanged relative to the April WEO, with an upgrade for South Africa following a strong positive surprise in the first quarter offset by downward revisions in other countries. The worsening pandemic developments in sub-Saharan Africa are expected to weigh on the region's recovery.

The 2021 growth forecast for the low-income developing country group is marked down 0.4 percentage point, with the slow rollout of vaccines as the main factor weighing on the recovery (partially offset by stronger external demand from advanced economies). IMF staff analysis indicates that low-income developing countries will require close to \$200 billion in spending to combat the pandemic and an additional \$250 billion to regain their pre-pandemic convergence paths (see the IMF's *Macroeconomic Developments and Prospects in Low-Income Countries—2021*). Labor market prospects for low-skilled workers and youth continue to be relatively bleak compared with those for other demographic groups, which points to increasing inequality and higher vulnerability to a decline in incomes below extreme poverty thresholds. Close to 80 million additional people are likely to enter extreme poverty during 2020–21 compared with pre-pandemic projections

Global trade: Despite near-term supply disruptions, global trade volumes are projected to expand 9.7 percent in 2021, moderating to 7.0 percent in 2022. The merchandise trade recovery is set to broaden after being initially concentrated in pandemic-related purchases, consumer durables, and medical equipment. Services trade is expected to recover more slowly, consistent with subdued cross-border travel until virus transmission declines to low levels everywhere.

Recent Price Pressures Could Turn Persistent if Inflation Expectations Increase

Elevated inflation in some cases, but pressures contained for the most part so far: In some emerging market and developing economies in sub-Saharan Africa and the Middle East and Central Asia, food prices have increased significantly amid shortages and the rise in global food prices. Currency depreciation has also lifted prices of imported goods, further adding to overall inflation. Core inflation—which removes the influences of energy and food prices—however remains contained for the most part. The recent acceleration in core inflation in the United States (accounted for mostly by increases in prices of used cars, lumber, and air travel) also largely reflects pandemic-related disruptions rather than a rapid exhaustion of spare capacity. One-off level shifters, such as the expiration of last year's temporary value-added tax cut in Germany and the increase in the shelter component of US consumer prices as rent and mortgage moratoriums expire, have also increased inflation temporarily.

Figure 5. Core Inflation
(Annual percent change)

Wage growth broadly stable so far: Despite a recent uptick in wage growth in the United States, wages of individuals—observed 12 months apart in the Atlanta Federal Reserve's Wage Growth Tracker—do not indicate broader pressure in the labor market. Data from Canada, Spain, and the United Kingdom show similar patterns of broadly stable wage growth this year.

Inflation outlook: In most cases inflation should subside to its pre-pandemic ranges in 2022 once the transitory disturbances work their way through prices. This judgment rests on three pillars: even with diminished participation rates, labor market slack remains substantial (albeit with reported shortages and hiring difficulties in sectors such as hospitality and travel); inflation expectations are well anchored; and structural factors that have lowered the sensitivity of prices to changes in slack are still expected to operate as before (some have possibly intensified—for example, automation). However, inflation is expected to remain elevated into 2022 in some emerging market and developing economies, related in part to continued food price pressures and lagged passthrough from higher oil prices for importers.

A key question for the outlook is how inflation expectations will evolve in this context. Many factors are at work in this uncharted recovery from an unprecedented recession, including accelerating demand running up against temporary supply shortages and logistical bottlenecks; rising commodity prices; still-substantial fiscal support and accommodative monetary policy; and excess household savings that will likely be drawn down going forward with reopening. Amid fears that these transitory pressures turn more persistent, the combination of these factors could cause an increase in medium-term inflation expectations (which for now appear to be anchored near central bank targets across most economies). Clear central bank communications on their interpretation of inflation drivers and on the monetary policy outlook will continue to be critical to shaping these expectations.

The budget aimed at energising the Indian economy through a combination of short-term, medium-term and long-term measures.

In the Union Budget 2021-22, capital expenditure for FY22 is likely to increase to increase by 34.5% at Rs. 5.5 lakh crore (US\$ 75.81 billion) over FY21 (BE) to boost the economy.

Increased government expenditure is expected to attract private investments, with production-linked incentive scheme providing excellent opportunities. In March 2021, the Ministry of Electronics and IT (MeitY) invited applications for the second round of large-scale electronics manufacturing under the production-linked incentive (PLI) scheme. The Government of India, under its Make in India initiative, is trying to boost the contribution made by the manufacturing sector with an aim to take it to 25% of the GDP from the current 17%. Besides, the Government has also come up with Digital India initiative, which focuses on three core components: creation of digital infrastructure, delivering services digitally and to increase the digital literacy.

OUR PRODUCTS:

Our company deals in various furniture products which are mentioned below:

Restaurant and Cafe Furniture – includes Chairs, Dining Set, Dining table, Stools and Canteen Furniture

Bar Furniture

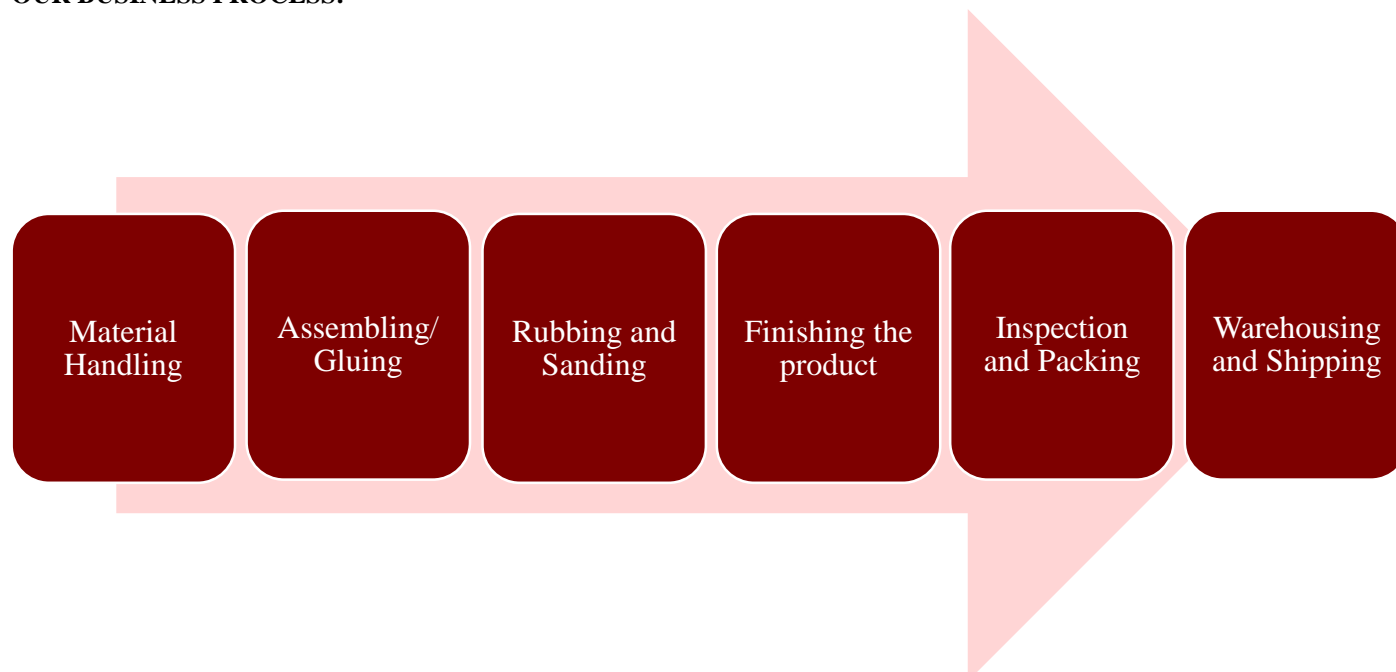

Garden & Outdoor Furniture

OUR BUSINESS PROCESS:

1. Material Handling:

The first step in our business process is material handling i.e., procurement of semi-finished products from manufacturers. We source our products from reliable manufacturers of the market. Material Handling is loading, moving and unloading of semi-finished goods from one place to another. Two aspects are important in material handling which are safety and cost. We purchase semi-finished materials from our manufacturers depending upon the customer's requirement and their needs.

2. Assembling/ Gluing:

This is the stage where the work is done through a variety of technique according to its functions & types. Assembly involves the fitting together of semi-finished parts into a complete unit. In our company, component parts are first assembled into a piece of furniture and later finished. The assembly operation is performed to put a piece of furniture together such that it stays together and gives good service over a reasonable period of time.

3. Rubbing and Sanding:

Rubbing is the cutting down with sandpaper of the top coat to make it completely level. Sanding is carried out before finishing to remove defects from the wood surface that will affect the appearance and performance of finishes that are subsequently applied to

the wood. These defects include cutter marks and burns, scratches and indentations etc. Sanding should not be used to eliminate larger defects such as gouges and various forms of discoloration. Other techniques are used to remove these defects.

4. Finishing:

The most important feature of the furniture which influences the prospective buyer is its appearance. The purpose of finishing is threefold i.e., Appearance, Smoothness and Protection. There are various methods through which finishing is done like brushing, spraying, pressing, dipping, printing etc. While choosing the desired method, there are several considerations like desired shape & appearance, cost of finishing material & labour etc. There are different types of finishes for wood furniture which are detailed below:

- **Surface Coatings:** These are clear, built-up, highly durable finishes that are virtually maintenance-free. Examples of surface coatings are varnish, shellac and lacquer. Surface coating finishes will add depth and warmth to the appearance of the woodwork, while enhancing the colour and grain.
- **Natural Finishes:** These are clear finishes that are used to add lustre, warmth, and character to the wood while protecting it from wear and tear.
- **Pigmented Finishes:** These are not transparent, and basically resembles paint. Black lacquer is a pigmented finish. Pigmented finishes can also be distressed and/or glazed.
- **Wax Polish:** This is the ultimate rich-looking and labor intensive finish that seals and protects the wood. It is used to rejuvenate and old finish or can be used as a finish itself. Surprising to most, a professionally applied wax finish requires little maintenance. It can also be applied over a penetrating finish, to reduce the amount of maintenance that would typically be required.
- **Staining:** It is used to enhance the true color of the furniture or to achieve uniformity when the wood has an inconsistent appearance. It can also be used to change the natural color of the wood to a color more in keeping with the owner's tastes.
- **Glazing and Toning:** These are techniques used to highlight the details in the woodwork or to unify and add depth to the color. These two techniques can also be used to give "age" to the finish. The process is one of applying transparent pigmented liquid over or between coats of finish.
- **Pickling and Liming:** These are traditional finishing processes used to accentuate the wood grain. The highlighting is achieved by using two contrasting colors: a base color and another color rubbed into the grain.
- **Bleaching:** It is used to lighten the natural color of wood or to remove discoloration caused by moisture. Bleaching can also be used to achieve the base color in preparation for pickling or liming. It is not used to remove stain or dyes.
- **Distressing:** It is a technique that can be used to give age and interest to the finish. This can be done any number of ways, including:
 - a) sanding the finish away from areas that would have been worn over the years
 - b) rubbing the finish away with a chemical
 - c) striking the surface with a mix of objects that will randomly dent the finish.

5. Inspection and Packing:

Furniture inspections reduce risks, improve the quality of the furniture and helps to manage the quantity of semi-finished used to process the finished product. Furniture has to meet the correct quality, safety and durability requirements. A high-quality inspection process ensures the products are checked for against all specifications to ensure that the customer's specific requirements are met. Enabling corrections to be actioned and implemented before completion, reduces the risk of production failure and helps to verify the material and finishing quality and therefore reduces the risk of after-sale services due to production defects.

After inspection, the products are packed for dispatching. We deliver products in packaging that offer the ultimate protection for large, bulky or heavy products. We provide fit-for-purpose, cost efficient and sustainable packaging that combine maximum protection with minimised waste.

6. Warehousing and Shipping:

The last step in our process is warehousing and shipping. Once the final product is ready then it is either sent to warehouse or shipped to the customer's address. As our business is engaged in E-commerce also, it is imperative to store the products in warehouse for safe storage until an order is dispatched.

PLANT & MACHINERY:

Since we are primarily in the business of semi-finished processing, we do not require any major Plant & Machinery for processing semi-finished into finished products.

CAPACITY AND CAPACITY UTILIZATION:

Our business includes conversion of semi-finished goods into finished products. Hence, capacity and capacity utilization is not applicable to us.

Our company deals in various furniture products which are mentioned below:

1. Restaurant and Cafe Furniture – includes Chairs, Dinning Set, Dining table, Stools and Canteen Furniture
2. Bar Furniture
3. Garden & Outdoor Furniture
4. Vintage and Antique Furniture

OUR BUSINESS PROCESS:

1. Material Handling:

The first step in our business process is material handling i.e., procurement of semi-finished products from manufacturers. We source our products from reliable manufacturers of the market. Material Handling is loading, moving and unloading of semi-finished goods from one place to another. Two aspects are important in material handling which are safety and cost. We purchase semi-finished materials from our manufacturers depending upon the customer's requirement and their needs.

2. Assembling/ Gluing:

This is the stage where the work is done through a variety of technique according to its functions & types. Assembly involves the fitting together of semi-finished parts into a complete unit. In our company, component parts are first assembled into a piece of furniture and later finished. The assembly operation is performed to put a piece of furniture together such that it stays together and gives good service over a reasonable period of time.

3. Rubbing and Sanding:

Rubbing is the cutting down with sandpaper of the top coat to make it completely level. Sanding is carried out before finishing to remove defects from the wood surface that will affect the appearance and performance of finishes that are subsequently applied to the wood. These defects include cutter marks and burns, scratches and indentations etc. Sanding should not be used to eliminate larger defects such as gouges and various forms of discoloration. Other techniques are used to remove these defects.

4. Finishing:

The most important feature of the furniture which influences the prospective buyer is its appearance. The purpose of finishing is threefold i.e., Appearance, Smoothness and Protection. There are various methods through which finishing is done like brushing, spraying, pressing, dipping, printing etc. While choosing the desired method, there are several considerations like desired shape & appearance, cost of finishing material & labour etc. There are different types of finishes for wood furniture which are detailed below:

- **Surface Coatings:** These are clear, built-up, highly durable finishes that are virtually maintenance-free. Examples of surface coatings are varnish, shellac and lacquer. Surface coating finishes will add depth and warmth to the appearance of the woodwork, while enhancing the colour and grain.
- **Natural Finishes:** These are clear finishes that are used to add lustre, warmth, and character to the wood while protecting it from wear and tear.
- **Pigmented Finishes:** These are not transparent, and basically resembles paint. Black lacquer is a pigmented finish. Pigmented finishes can also be distressed and/or glazed.
- **Wax Polish:** This is the ultimate rich-looking and labor intensive finish that seals and protects the wood. It is used to rejuvenate and old finish or can be used as a finish itself. Surprising to most, a professionally applied wax finish requires little maintenance. It can also be applied over a penetrating finish, to reduce the amount of maintenance that would typically be required.
- **Staining:** It is used to enhance the true color of the furniture or to achieve uniformity when the wood has an inconsistent appearance. It can also be used to change the natural color of the wood to a color more in keeping with the owner's tastes.
- **Glazing and Toning:** These are techniques used to highlight the details in the woodwork or to unify and add depth to the color. These two techniques can also be used to give "age" to the finish. The process is one of applying transparent pigmented liquid over or between coats of finish.
- **Pickling and Liming:** These are traditional finishing processes used to accentuate the wood grain. The highlighting is achieved by using two contrasting colors: a base color and another color rubbed into the grain.
- **Bleaching:** It is used to lighten the natural color of wood or to remove discoloration caused by moisture. Bleaching can also be used to achieve the base color in preparation for pickling or liming. It is not used to remove stain or dyes.
- **Distressing:** It is a technique that can be used to give age and interest to the finish. This can be done any number of ways, including:

- d) sanding the finish away from areas that would have been worn over the years
- e) rubbing the finish away with a chemical
- f) striking the surface with a mix of objects that will randomly dent the finish.

5. Inspection and Packing:

Furniture inspections reduce risks, improve the quality of the furniture and helps to manage the quantity of semi-finished used to process the finished product. Furniture has to meet the correct quality, safety and durability requirements. A high-quality inspection process ensures the products are checked for against all specifications to ensure that the customer's specific requirements are met. Enabling corrections to be actioned and implemented before completion, reduces the risk of production failure and helps to verify the material and finishing quality and therefore reduces the risk of after-sale services due to production defects.

After inspection, the products are packed for dispatching. We deliver products in packaging that offer the ultimate protection for large, bulky or heavy products. We provide fit-for-purpose, cost efficient and sustainable packaging that combine maximum protection with minimised waste.

6. Warehousing and Shipping:

The last step in our process is warehousing and shipping. Once the final product is ready then it is either sent to warehouse or shipped to the customer's address. As our business is engaged in E-commerce also, it is imperative to store the products in warehouse for safe storage until an order is dispatched.

PLANT & MACHINERY:

Since we are primarily in the business of semi-finished processing, we do not require any major Plant & Machinery for processing semi-finished into finished products.

CAPACITY AND CAPACITY UTILIZATION:

Our business includes conversion of semi-finished goods into finished products. Hence, capacity and capacity utilization is not applicable to us.

Further, as per the SEBI circular (SEBI/HO/CFD/DCR2/CIR/P/2019/133) dated November 8, 2019, the UPI Phase II had been extended until March 31, 2020. PHASED IMPLEMENTATION OF UPI FOR BIDS BY RETAIL INDIVIDUAL BIDDERS AS PER THE UPI CIRCULAR

Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI Mechanism, the UPI Circular proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019 and till June 30, 2019. Under this phase, a Retail Individual Applicant had the option to submit the Application Form with any of the intermediaries and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing would continue to be six Working Days.

Phase II: This phase has become applicable from July 1, 2019 and the continuation of this phase has been extended until March 31, 2020. However, the time duration from public issue closure to listing continues to be six Working Days during this phase. Further, pursuant to SEBI circular dated March 30, 2020, this phase has been extended till further notice.

Phase III: The commencement period of Phase III is yet to be notified. In this phase, the time duration from public issue closure to listing is proposed to be reduced to three Working Days.

All SCSBs offering facility of making application in public issues shall also provide facility to make application using the UPI Mechanism. The issuers are to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the Retail Individual Bidders into the UPI Mechanism.
