3. We are heavily dependent on the performance of the tractor industry and automobile. Major upsets or slowdown adversely affecting the tractor industry and automobiles and its ancillary industries can impact our business, results of operations, financial condition and cash flows.

Our business is heavily dependent on the performance of the automobile sector particularly, tractors market and commercial vehicles in India. We are therefore exposed to fluctuations in the performance of these markets. In the event of a decrease in demand in these markets or any developments that make the sale of components in these markets less economically beneficial, we may experience pronounced effects on our business, results of operations and financial condition.

There exists relationship between machine tool industry and automobiles and its ancillary industries. Performance of automobiles and its ancillary industries will affect the performance of machine tool industry which may affect our operation and may prove detrimental to our growth. Also, any economic slowdown in the automobile manufacturing and sales, both globally and in regions, in which we operate, may significantly affect our revenues and our growth prospects. The automotive market is affected by, amongst other things, changes in government policies, economic conditions, demographic trends, employment and income levels and interest rates, which may negatively affect the demand of our products which may materially adversely affect our business, results of operations and financial condition.

4. *Substantial portion of our revenues has been dependent upon our top five clients. The loss of any one or more of our major clients would have a material adverse effect on our business operations and profitability*

Our top five customers account for a substantial portion of our sales, and consequently our revenue, and we expect that such key customers will continue to represent a substantial portion of our revenue from sale of products in the foreseeable future. Our total sales to our top 5 customers are 73.78%, 65.58% and 68.55% to a substantial portion of our revenues from operations Financial Year ended March 31, 2023, Financial Year ended March 31, 2022, Financial Year ended March 31, 2021. Since we are largely dependent on certain key customers for a significant portion of our sales, the loss of any one of our key customers or a significant reduction in demand from such customers could have a material adverse effect on our business, financial condition, results of operations and future prospects. We have not entered into formal arrangements or contracts with our customers to purchase the products from us except, where we had entered into arrangement by providing a bank guarantee to General Manager, Ammunition Factory (Unit of Munitions India Limited Khadki, Pune on behalf of President of India (herein after referred to as the Government) We work on purchase order basis with our customers based on their demand. Since we have no formal arrangements with our customers, they are not contractually obligated to purchase minimum quantity of products from us and may choose to purchase the products from our competitors. We cannot assure you that we will be able to continue to retain these customers on terms that are commercially acceptable to us, or at all. We cannot assure you that we can maintain the historical levels of business from these clients or that we will be able to replace these clients in case we lose any of them. Furthermore, major events affecting our clients, such as bankruptcy, change of management, mergers and acquisitions could adversely impact our business.

5. *We extend significant credit terms to our customers and are subject to counterparty credit risk. Any deterioration in such customers' financial position and their ability to pay or our inability to extend credit in line with market practice may adversely impact our profitability.*

We are exposed to payment delays and/or defaults by our customers. Our financial position and financial performance are dependent on the creditworthiness of our customers. As per our business model, we supply our products directly to our existing customers without taking any advance payment or security deposit against the orders placed by them, however for some instance our Company had taken advance from the customer. Such delays in payments may require our Company to make a working capital investment. We cannot assure you that payments from all or any of our customers will be received in a timely manner or to that extent will be received at all. If a customer defaults in making its payments for an order over which our Company have devoted significant resources, or if an order in which our Company has invested significant resources is delayed, cancelled or does not proceed to completion, it could have a material adverse effect on our Company's results of operations and financial condition. There is no guarantee on the timeliness of all or any part of our customers' payments and whether they will be able to fulfil their obligations, which may arise from their financial difficulties, deterioration in their business performance, or a downturn in the global economy. If such events or circumstances occur, our financial performance and our operating cash flows may be adversely affected.

6. *We rely on third party suppliers to provide our raw materials and we have limited control over them and may not be able to obtain required quality raw materials on a timely basis or in sufficient quantity which may have a material adverse effect on our results of operations.*

Our Company is engaged in the business of manufacturing of machine tools, casting and forging, and pig iron, MS scrap, CI boring, stamping and round / flat iron is used as the primary raw material during our manufacturing process. Therefore, we are highly dependent on third party local supplier, and it forms the most important and primary component of our manufacturing process. Our top ten suppliers constitute 69.61%, 88.31% and 63.51% of our total purchases for the Financial Year ended March 31, 2023, Financial Year ended March 31, 2022 and Financial Year ended March 31, 2021 respectively. If we experience significant increased demand, or need to replace an existing manufacturer, there can be no assurance that additional supplies of raw materials or additional manufacturing capacity will be available when required on terms that are acceptable to us, or at all, or that any supplier or manufacturer would allocate sufficient capacity to us in order to meet our requirements or fill our orders in a timely manner. Even if we are able to expand existing or new raw material sources, we may encounter delays in production and added costs as a result of the time it takes to train our suppliers and manufacturers in our methods, products and quality control standards. Any delays, interruption or increased costs in the supply of raw materials or manufacture of our products could have an adverse effect on our ability to meet customer demand for our products and result in lower revenue from operations both in the short and long term. In addition, there can be no assurance that our suppliers and manufacturers will continue to provide raw materials products that are consistent with our standards.

7. ***Our business is dependent on our manufacturing facilities which are located in Jalandhar, Punjab, India. Any loss or shutdown of operations at any of our manufacturing facilities may have an adverse effect on our business and results of operations.***

We have manufacturing facilities located in Jalandhar, Punjab, India. As a result, the concentration of our entire manufacturing facilities in one particular region exposes us to the risk of any adverse conditions in this region, such as labour disputes, natural calamities, industrial accidents, civil disturbances or any adverse political, social or economic conditions, the occurrence of which could have a material adverse effect on our business, financial condition and results of operations. We have not experienced any of these operating risks in the past. Although, we have contingency plans to meet most of our operating risks. However, we cannot assure you about the adequacy of such plans.

In addition, our customer rely on the timely delivery of our products and our ability to provide an uninterrupted supply of our products is critical to our business. Any disruption of operations of our manufacturing facilities could result in delayed delivery of our products or defects in the products delivered to our customers, which in turn may lead to disputes and legal proceedings with them on account of any losses suffered by them or any interruption of their business operations due to such delay or defect. Our business and financial results may be adversely affected by any disruption of operations of our manufacturing facilities, on account of factors including any or all of the factors mentioned above.

8. ***Our products adhere to strict quality control requirements because of which we have gained the trust and confidence of our customers and our inability to maintain such quality standards on consistent basis could adversely impact our business, results of operations and financial condition***

Success of our business depends upon quality of our products. We have gained the trust and confidence of our customers due to the emphasis placed by us on the quality of products manufactured by us. Any rapid change in our customers expectation on account of changes in technology or introduction of new product or any other reason and failure on our part to comply with the design specifications of our customers or meet their quality expectations may lead to cancellation of the supply orders placed by our customers or reduction in the volume of orders given to us. This could adversely affect our business, results of operations and financial condition of the Company.

9. ***Our business is subject to various operating risks at our factory, the occurrence of which can affect our results of operations and consequently, financial condition of our Company.***

Our business operations are subject to operating risks, such as breakdown or failure of equipment's used at our factory, interruption in power supply, shortage of consumables, performance below expected levels of output or efficiency, natural disasters, obsolescence, labour disputes, industrial accidents, our inability to respond to technological advancements and emerging realty industry standards and practices along with the need to comply with the directives of relevant government authorities. The occurrence of these risks, if any, could significantly affect our operating results, and the slowdown / shutdown of business operations may have a material adverse effect on our business operations and financial conditions.

10. ***Our Company has availed unsecured loan which are repayable on demand. Any demand from the lenders for repayment of such unsecured loan may affect our cash flow and financial condition.***

Our Company, as per the Restated Financial Statement, has availed total sum of ₹ 819.91 Lakhs as on March 31, 2023, which may be recalled at any time. Sudden recall may disrupt our operations and also may force us to opt for funding at higher interest rates, resulting in higher financial burden. Further, we will not be able to raise funds at short notice and thus result in shortage of working capital fund. For further details, please refer the chapter "**Financial Indebtedness**" on page no. 223 of this Prospectus. Any demand for the repayment of such unsecured loan, may adversely affect our cash flow and financial condition.

11. ***Our Company has negative cash flows from its operating, investing and financing activities, details of which are given below. Any such recurrence in future, could impact our growth and business.***

Our Company had negative cash flows from its operating, investing and financing activities in the previous years as per the Restated Financial Statements and the same are summarized as under:

(₹ in Lakhs)

Particulars	As on March 31, 2023	As on March 31, 2022	As on March 31, 2021
Net Cash Flow from / (used in) Investing Activities.	(1,890.16)	(1,362.47)	(1,037.69)
Net Cash Flow from / (used in) Financing Activities	(2,088.60)	3,304.50	379.34

Cash flow of a company is a key indicator to show the extent of cash generated from operations to meet capital expenditure, pay dividends, repay loans and make new investments without raising finance from external resources. If we are not able to generate sufficient cash flows in future, it may adversely affect our business and financial operations. For further details see chapter on **“Management’s Discussion and Analysis of Financial Conditions and Results of Operations of our Company”** beginning on page no. 214 of this Prospectus.

12. Our contingent liabilities could materially and adversely affect our business, results of operations and financial condition.

A summary of our contingent liabilities, as indicated in our Restated Financial Statements is as follows:

(in ₹ Lakhs)

Particulars	As at March 31, 2023	As at March 31, 2022	As at March 31, 2021
Claims against the Company not acknowledged as debt			
Income tax liability that may arise in respect of which the Company is under appeal (Net of pre deposit)	38.25	38.25	-
Bank Guarantees	9.33	9.33	-
Letter of Credit	90.00	90.00	-
Claim against the Company not acknowledged as debt	-	-	-

Contingent liabilities related to Income Tax Act, 1961, where appeal was lying with CIT - Appeals for A.Y. 2017-18, for dispute regarding tax on Unexplained Investments.

For further information, see **“Restated Financial Statements - Annexure VI”** on page 184 of this Prospectus.

Most of the liabilities have been incurred in the normal course of business. If these contingent liabilities were to fully materialize or materialize at a level higher than we expect, it may materially and adversely impact our business, financial condition and results of operations. If we are unable to recover payment from our customers in respect of the commitments that we are called upon to fulfil, our business, financial condition and results of operations may be materially and adversely impacted.

13. Our financing agreements impose certain restrictions on our operations, and our failure to comply with operational and financial covenants may adversely affect our reputation, business and financial condition.

Certain of our financing arrangements impose restrictions on the utilization of the loan for certain specified purposes only. Moreover, certain of our financing documents contain provisions that may limit our ability to incur future debt and create security and require us to obtain the respective lenders’ consent prior to carrying out certain activities and entering into certain transactions. While, as on the date of this Prospectus, we have obtained requisite consents from our lenders for undertaking the Offer, failure to obtain requisite consents in the future in a timely manner or at all could have significant consequences on our business, prospects and operations. While we have not breached any covenants in the past, a failure to observe the covenants under our financing arrangements or to obtain necessary waivers may lead to the termination of our credit facilities, acceleration of amounts due under such facilities, suspension of further access/ withdrawals, either in whole or in part, for the use of the loans/facilities, imposition of penal interest, appointment of a nominee director by the lender on our Board and enforcement of security. Additionally, working capital facilities, availed by us are typically repayable on demand. In the event any or all of our lenders, demand immediate repayment of facilities availed from them, we may be unable to procure alternative financing in a timely manner at acceptable terms. The lenders may have the right to withdraw their facilities in the event of any change in circumstances, including, any material change in the ownership or shareholding pattern of our Company. Such financing agreements may also require us to maintain certain financial ratios. Certain of our loans can also be recalled by lenders at any time. If the lenders exercise their right to recall a loan, it could have an adverse effect on our reputation, business and financial position. If our future cash flows from operations and other capital resources are insufficient to pay our debt obligations or our contractual obligations, or to fund our other liquidity needs, we may be forced to sell assets or attempt to restructure or refinance our existing indebtedness.

Our ability to restructure or refinance our debt will depend on the condition of the capital markets, our financial condition at such time and the terms of our other outstanding debt instruments. Any refinancing of our debt could be at higher interest rates and may require us to comply with more onerous covenants, which could further restrict

our business operations. The terms of existing or future debt instruments may restrict us from adopting some of these alternatives. In addition, any failure to make payments of interest or principal on our outstanding indebtedness on a timely basis would likely result in a reduction of our creditworthiness or credit rating, which could harm our ability to incur additional indebtedness on acceptable terms. Additionally, our cost of borrowing may increase when there is a change in LIBOR rates and a resultant increase in interest rates for our existing loans. These ultimately may have an impact on our business and financial health.

14. *Our Promoter/Directors has given personal guarantees in relation to certain financing arrangements provided to us by our lenders which may not continue after the completion of the issue.*

Our Company has availed multiple credit facilities from the Canara Bank against which our Promoter/Directors had given their personal guarantees to the Canara Bank. These facilities are secured against land and building, stock and book debts. In addition to that bank has demanded the personal guarantees of our Promoter Directors of our Company. The liability of our Promoter Directors who has given personal guarantee is to the extent of their personal assets. We have historically depended on guarantees provided to our lenders by our Promoters in order to help fund our operations and business expansion.

Under certain financial arrangements with our lenders, our Promoters has given personal guarantees for repayment of the credit facilities availed by us. Any default or failure by us to repay its loans in a timely manner, or at all could trigger repayment obligations in respect of such loans, which in turn, could have an impact on their ability to effectively service their obligations as Promoters of our Company, thereby having an effect on our business, results of operation and financial condition.

Further, our Promoter may not provide any financial or other support or withdraw or terminate their guarantees and collateral security, after the completion of the issue. In such event our lenders for such facilities may ask for alternate guarantees and collateral security, repayment of amounts outstanding under such facilities, or even terminate such facilities. Furthermore, if the financial condition of our Promoters deteriorates, our existing financing arrangements with our lenders may be adversely affected. We may not be successful in procuring guarantees satisfactory to the lenders, and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could affect our financial condition and cash flows. We cannot assure you that such contributions to us by our Promoters will be on terms comparable with such past transactions or continue in future at all. This could have a material adverse effect on our business and financial condition. For further details, please see the chapter titled "**Financial Indebtedness**" on page 241 of this Prospectus.

15. *A substantial portion of our assets are hypothecated or mortgaged in favour of lenders as security for some of our fund-based and non-fund-based borrowings.*

Our lenders may enforce the security in the event of our failure to service our debt obligations which may adversely affect our business, financial condition and results of operations. As on March 31, 2023, we had total short term borrowing and long-term borrowings of ₹ 5042.76 lakhs and ₹ 3080.04 Lakhs respectively. These borrowings are secured, among others, through a charge by way of hypothecation on our present and future current assets and fixed assets as well as through mortgage on our land and buildings. Please refer the chapter titled "**Financial Indebtedness**" on page 184 of this Prospectus. As these assets are hypothecated or mortgaged, our rights in respect of transferring or disposing of these assets are restricted. Further, in the event we fail to service our debt obligations, the lenders have the right to enforce the security created in respect of our secured borrowings. If the lenders choose to enforce security and dispose our assets to recover the amounts due from us, our business, financial condition and results of operations may be adversely affected.

16. *Our Promoter and Promoter Group will continue to retain majority shareholding in our Company after the Issue, which will allow them to exercise significant influence over us and potentially create conflicts of interest.*

As on date of this Prospectus, our Promoter and Promoter Group hold approximately 73.01 % of the post issue share capital of our Company. Accordingly, our Promoter and Promoter Group will continue to exercise significant influence over our business affairs and all matters requiring shareholders' approval, including the composition of our Board, the adoption of amendments to our certificate of incorporation, the approval of mergers, strategic acquisitions or joint ventures or the sales of substantially all of our assets, and the policies for dividends, lending, investments and capital expenditures. This concentration of ownership also may delay, defer or even prevent a change in control of our Company and may make some transactions more difficult or impossible without the support of these shareholders. The interests of the Promoter and promoter Group as our controlling shareholder could conflict with our interests or the interests of its other shareholders. We cannot assure you that the Promoter will act to resolve any conflicts of interest in our favor.

17. *We require certain approvals, licenses, registrations and permits for our business, and the failure to obtain or renew them in a timely manner may adversely affect our operations.*

We require several statutory and regulatory permits, licenses and approvals to operate our business. Many of these approvals are granted for fixed periods of time and need renewal from time to time. Non-obtaining or non-renewal of the said permits and licenses would adversely affect our Company's operations, thereby having a material adverse effect on our business, results of operations and financial condition. For example, a) we cannot trace the original certificates of certain Government Approvals which inter-alia includes Employees State Insurance certificate for Unit-I and Unit-II, although we have challans to support the same; b) Our Company is also not in the possession of Punjab State Development Tax certificate. However, the company has an acknowledgement receipt for the same; c) Our Company has obtained the certificate for 'consent to establish' (Air and Water) in the year 2007 for address A - 10, Industrial Development Colony, bye pass, Jalandhar, Jalandhar, PB-144012. Our Company is not in possession of 'Consent to establish' for address Vpo-Dhogri, Pathankot road, Jalandhar, Punjab but we are in possession of 'Consent to operate' for both the address. However, we have applied for the duplicate thereof; and d) Our Company is in a process of applying change of name from 'Sharp Chucks and Machines Private Limited' to 'Sharp Chucks and Machines Limited' and e) Our Company is in the process of updating Goods and Service Tax identification number.

There has been instance of delay payment to statutory authority with respect to GST, PF and ESIC due to internal reconciliations, on account of technical glitches and uncertain unavoidable reasons. However, our Company had taken steps to overcome these delays by making proper allocation of work to the employees, and providing timely reconciliations of the records.

There can be no assurance that the relevant authorities will issue any of such permits or approvals in the time-frame anticipated by us or at all. Further, some of our permits, licenses and approvals are subject to several conditions and we cannot provide any assurance that we will be able to continuously meet such conditions or be able to prove compliance with such conditions to the statutory authorities, which may lead to the cancellation, revocation or suspension of relevant permits, licenses or approvals.

Also, our Company is in the process of making application for change in name in all the permits, licenses and approvals, which are under Company's former name.

Any failure by us to apply in time, to renew, maintain or obtain the required permits, licenses or approvals, or the cancellation, suspension or revocation of any of the permits, licenses or approvals may result in the interruption of our operations and may have a material adverse effect on the business.

If there is any failure by us to comply with the applicable regulations or if the regulations governing our business are amended, we may incur increased costs, be subject to penalties, have our approvals and permits revoked or suffer a disruption in our operations, any of which could adversely affect our business. For further details regarding the material approvals, licenses, registrations and permits, please refer to chapter titled "**Government and Other Approvals**" and "**Key Industry Regulations and Policies**" beginning on page no. 250 and 165 of this Prospectus.

18. *We have significant power requirements for continuous running of our factories. Any disruption to our operations on account of interruption in power supply or any irregular or significant hike in power tariffs may have an effect on our business, results of operations and financial condition.*

Our manufacturing facilities and administrative offices have significant electricity requirements and any interruption in power supply to our manufacturing facilities and administrative offices may disrupt our operations. Our Company had applied extension of existing load from having 2489.989 kW/ 2495 kVA to 4000 kW/ 3995 kVA which have been received from Punjab State Power Corporation Limited dated December 09, 2020. Our business and financial results may be affected by any disruption of operations. We depend on Punjab State Power Corporation Limited for all of our electricity requirements. Further, we have limited options in relation to maintenance of power back-ups such as diesel generator sets and any increase in diesel prices will increase our operating expenses which may impact our business margins.

Since we have significant power consumption, any unexpected or significant increase in its tariff can increase the operating cost and production cost which we may not be able to pass on to our customers, which may negatively affect our business, financial condition and results of operations.

19. *We are subject to risks associated with rejection of our products consequential to defects, which could adversely affect our business, results of operations or financial condition.*

Defects, if any, in our products could lead to rejection of sold products and consequential return liability. In the event of return of such defective products could have adverse effect on our business, results of operations or financial condition.

We cannot assure you that no such claims will be brought against us in the future or that such claims will be settled in our favour. Any such successful claims against us could adversely affect our results of operations.

20. ***Our funding requirements and the proposed deployment of Net Proceeds are not appraised by any independent agency are based on management estimates and may be subject to change based on various factors, some of which beyond our control. Any changes in the estimated funding requirements could affect our business and results of operations.***

We intend to utilize the Net Proceeds of the Issue as set forth in “***Objects of the Issue***” beginning on page 94 of this Prospectus. Our funding requirements are based on management estimates and our current business plans and has not been appraised by any bank or financial institution. The deployment of the Net Proceeds will be at the discretion of our Board. We may have to reconsider our estimates or business plans due to changes in underlying factors, some of which are beyond our control, interest or exchange rate fluctuations, increase in input costs, labour costs, logistics and transport costs, incremental preoperative expenses, taxes and duties, start-up costs, engineering procurement and construction costs, regulatory costs, environmental factors, other external factors and since we have not presently entered into any definitive agreements for the use of the Net Proceeds. Accordingly, prospective investors in the Issue will need to rely upon our management’s judgment with respect to the use of the Net Proceeds. If we are unable to deploy the Net Proceeds in a timely or an efficient manner, it may affect our business and results of operations.

21. ***Industry information of the Company included in this Prospectus has been derived from different industrial association and other governmental sources and reports. There can be no assurance that such third-party statistical, financial and other industry information is either complete or accurate.***

There can be no assurance that such third-party statistical, financial and other industry information is either complete or accurate. We have referred different industrial association and other governmental sources and reports for purposes of inclusion of such information in this Prospectus. This data is subject to various limitations and based upon certain assumptions that are subjective in nature. None of our Company, the Lead Manager or any other person connected with the Issue has independently verified such information. Although we believe that the data may be considered to be reliable, the accuracy, completeness and underlying assumptions are not guaranteed and dependability cannot be assured. While we have taken reasonable care in the reproduction of the information, the information has not been prepared or independently verified by us, or the Lead Manager or any of our or its respective affiliates or advisors and, therefore, we make no representation or warranty, express or implied, as to the accuracy or completeness of such facts and statistics. Further, there is no assurance that such information is stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere. In addition, statements from third parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this Prospectus.

22. ***Pricing pressure from our customers may adversely affect our gross margin, profitability and ability to increase our prices, which may in turn have a material adverse effect on our results of operations and financial condition.***

We manufacture and supply, high-quality precision machine tools, forging and casting for the automotive sectors. We have in the past experienced and may continue to experience pressure from our customers to reduce our prices, which may affect our profit margins going forward. In addition, as any price reduction is the result of negotiations and factors that may be beyond our control, we, like other manufacturers, must be able to reduce operating costs and increase operating efficiencies in order to maintain profitability. As our business is very capital intensive, requiring us to maintain a large, fixed cost base, our profitability is dependent, in part, on our ability to spread fixed costs over higher sales volume. However, we may not be able to spread such fixed costs effectively as our customers generally negotiate for larger discounts in price as the volume of their orders increases. If we are unable to offset customer price reductions in the future through improved operating efficiencies, new manufacturing processes, sourcing alternatives and other cost reduction initiatives, our results of operations and financial condition may be materially adversely affected.

23. ***Our future funds requirements, in the form of fresh issue of capital or securities and or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.***

We may require additional capital from time to time depending on our business needs. Any issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favorable to the then existing shareholders. If such funds are raised

in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

24. *Employee misconduct could harm us and is difficult to detect and deter.*

Although we monitor our employees, misconduct, including acts of bribery, corruption or fraud by employees or executives, such acts could include binding us to transactions that exceed authorized limits or present unacceptable risks, or they may hide unauthorized or unlawful activities from us, which may result in substantial financial losses and damage to our reputation and loss of business from our customers. Employee or executive misconduct could also involve the improper use or disclosure of confidential information, which could result in regulatory sanctions and serious reputational or financial harm, including harm to our brand. It is not always possible to deter employee or executive misconduct and the precautions taken and systems put in place to prevent and detect such activities may not be effective in all cases. Any instances of such misconduct could adversely affect our business and our reputation.

25. *We have in the past entered into related party transactions and may continue to do so in the future, which may potentially involve conflicts of interest with the equity shareholders.*

We have in the course of our business entered into, and will continue to enter into, several transactions with our related parties with respect to remuneration paid to our directors and loan availed and repayment from them. For further information, please refer to the chapter titled “**Restated Financial Statements- Related Party Transaction- Annexure VII**” beginning on page 184 of this Prospectus. We cannot assure you that we will receive similar terms in our related party transaction in the future and that we could not have achieved more favourable terms had such transactions been entered into with unrelated parties. While our Company confirm that all the related party transactions have been conducted on the arm’s length basis and they are in compliance with the relevant provisions of Companies Act, 2013 and other applicable law but there can be no assurance that it could not have been achieved on more favourable terms had such transactions not been entered into with related parties. The transactions we have entered into and any further transactions that we may have with our related parties could potentially involve conflicts of interest which may be detrimental to us. We cannot assure you that such transactions, individually or in the aggregate, will not have an adverse effect on business and financial results, including because of potential conflicts of interest or otherwise.

26. *Certain of our corporate records and certain other documentation are not traceable or have discrepancies. We cannot assure you that any regulatory proceedings or actions will not be initiated against us in the future and we will not be subject to any penalty imposed by the competent regulatory authority in this regard*

We do not possess some of the prescribed forms filed with the Registrar of Companies, Punjab, particularly relating to forms filed with RoC. However, for that records, our Company have only certified copies for Annual Return filed with RoC pertaining to the period prior to 2006.

Our Company was incorporated in the year 1994, certain documents have been untraceable on account of shifting of registered office from one place to another. Thus, the history of our Company with regard to certain share allotments and authorised capital presented in this period. Minutes for the said allotment are available with Company, thus the nature of allotment and resolution cannot be traced. The details in respect of share allotments have been inserted based on the Form - 2 filed with ROC and limited information available with the Company. For more details, please refer to chapter titled “**Capital Structure**” beginning on page 59 of this Prospectus.

Further our Company had taken all the necessary steps to rectify errors in our corporate records. We have included these details in this Prospectus by way of other corporate records, such as the relevant minutes book, registers and audited financial of the Company. We also cannot assure you that we will not be subject to any adverse action by any authority in relation to such untraceable records.

Additionally, in relation to the build-up of the equity shareholding of our Promoters, the share transfer forms for certain past transfers by our Promoters could not be traced or certain records are inconsistent or we do not otherwise possess the share transfer forms indicating the consideration involved.

Accordingly, we have relied on other available corporate records, including statutory registers, annual returns and ledger accounts in order to include information relating to such transfers. While certain information in relation to the share transfers has been disclosed in this Prospectus including in “**Capital Structure**” beginning on page 59 based on the aforementioned documents, we may not be able to furnish any further information other than as already disclosed herein.

While no legal proceedings or regulatory action has been initiated against our Company in relation to untraceable secretarial and other corporate records and documents as mentioned above, as of the date of this Prospectus, we cannot assure you that such legal proceedings or regulatory actions will not be initiated against our Company in future.

Further, due to the non-availability of the requisite statutory records, we may not be able to present the requisite documentary evidence to validate our point which may lead to any penal actions being taken against the Company and its operations may get adversely affected.

27. *We have had certain inaccuracy in relation to regulatory filings to be made with the RoC and our company has made non compliances of certain provision under applicable law.*

In the past, there have been certain instances of inaccuracy in relation to return of allotment and annual returns filed with ROC for instance, the list of shareholders and transfers are not attached with annual return filed, our Company had made errors in transfer list attached with annual return and number of shareholders are wrongly mention in annual return Further there are some instances where forms are belatedly filed in RoC with requisite additional fees.

For instance, at the time of conversion of preference share to equity share the list was wrongly attached to the Form 2 in the year 2011-2012. In following allotment the list of Allottee was not attached in the Form 2 in the year 2000-2001, 2001-2002 and 2005-2006.

Further our Company had taken all the necessary steps to rectify error in corporate records, such as the relevant board resolutions and the register of members of our Company.

Although no show cause notice have been issued against our Company till date in respect of above, in the event of any cognizance being taken by the concerned authorities, actions may be taken against our Company and its directors, in which event the financials of our Company and our directors may be affected.

28. *The average cost of acquisition of Equity Shares by our Promoters and Selling Shareholder could be lower than the Issue Price.*

Our Promoters average cost of acquisition of Equity Shares in our Company may be lower than the Issue Price as may be decided by the Company and the Selling Shareholder, in consultation with the Lead Managers. Further, our Promoter had acquired Equity Shares from the transferor which is lesser than face value per Equity Shares of the Company. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares by our Promoters in our Company, please refer to the chapters “*Capital Structure*” beginning on page 59 of this Prospectus.

29. *We depend on our senior management and other personnel, and if we are unable to recruit and retain qualified and skilled personnel, our business and our ability to operate or grow our business may be adversely affected.*

Our success depends to a large extent on the continued services of our senior management and other personnel. In an event they no longer work for us, there is no assurance that we will be able to find suitable replacements for such Key Managerial Personnel in a timely manner or at all and implement a smooth transition of responsibilities to any newly appointed management personnel. The market for qualified professionals is competitive and we may not continue to be successful in our efforts to attract and retain qualified people. We may therefore need to increase compensation and other benefits in order to attract and retain personnel in the future, which may adversely affect our results of operations.

We are a technology driven company with significant focus and investment in our in-house engineering capabilities. Our future success, amongst other factors, will depend upon our ability to continue to attract and retain qualified personnel, particularly engineers and other associates with critical expertise, know-how and skills that are capable of helping us develop technologically advanced systems and components and support key customers and products. The specialized skills we require in our industry are difficult and time consuming to acquire and, as a result, are in short supply. We require a long period of time to hire and train replacement personnel when we lose skilled employees. Our inability to hire, train and retain a sufficient number of qualified employees could delay our ability to bring new products or services to the market and impair the success of our operations. This could have an adverse effect on our business and results of operations. Our success also depends, in part, on key customer relationships forged by our senior management team.

If we were to lose these members of the senior management, we cannot assure you that we will be able to continue to maintain key customer relationships or renew them, which could adversely affect our business, financial condition, results of operations and cash flows

30. *Any variation in the utilisation of the Net Proceeds would be subject to certain compliance requirements, including prior shareholders’ approval.*

We intend to use the net proceeds raised pursuant to the Issue as set forth under “*Objects of the Issue*” beginning on page 94 of this Prospectus. In terms of the SEBI (ICDR) Regulations, we are not required to appoint a monitoring agency since the Issue size is not in excess of Rs, 10,000.00 Lakhs. The management of our Company

will have discretion to use the Net Proceeds from the Issue, and investors will be relying on the judgment of our Company's management regarding the application of the Net Proceeds from the Issue. Our Company may have to revise its management estimates from time to time and consequently its requirements may change. Additionally, various risks and uncertainties, including those set forth in this chapter "**Risk Factors**", may limit or delay our Company's efforts to use the Net Proceeds from the Issue to achieve profitable growth in its business.

In accordance with Sections 13(8) and 27 of the Companies Act 2013, we cannot undertake any variation in the utilisation of the Net Proceeds without obtaining the shareholders' approval through a special resolution. In the event of any such circumstances that require us to undertake variation in the disclosed utilisation of the Net Proceeds, we may not be able to obtain the shareholders' approval in a timely manner, or at all. Any delay or inability in obtaining such shareholders' approval may adversely affect our business or operations.

Further, our Promoters would be required to provide an exit opportunity to Shareholders who do not agree with our proposal to change the objects of the Issue or vary the terms of such contracts, at a price and manner as prescribed by SEBI. Additionally, the requirement on Promoters to provide an exit opportunity to such dissenting shareholders may deter the Promoters from agreeing to the variation of the proposed utilisation of the Net Proceeds, even if such variation is in the interest of our Company. Further, we cannot assure you that the Promoters or the controlling shareholders of our Company will have adequate resources at their disposal at all times to enable them to provide an exit opportunity at the price prescribed by SEBI. In light of these factors, we may not be able to undertake variation of objects of the Issue to use any unutilized proceeds of the Issue, if any, or vary the terms of any contract referred to in this Prospectus, even if such variation is in the interest of our Company. This may restrict our Company's ability to respond to any change in our business or financial condition by re-deploying the unutilized portion of Net Proceeds, if any, or varying the terms of contract, which may adversely affect our business and results of operations.

31. *Increases in interest rates may materially impact our results of operations.*

Substantially all of our secured debt carries interest at floating interest rates or at rates that are subject to adjustments at specified intervals. We are exposed to interest rate risk in respect of contracts for which we have not entered into any swap or interest rate hedging transactions, although we may decide to engage in such transactions in the future. We may further be unable to pass any increase in interest expense to our existing customers. Any such increase in interest expense may have a material effect on our business, financial condition, results of operations and cash flows. Furthermore, if we decide to enter into agreements to hedge our interest rate risk, there can be no assurance that we will be able to do so on commercially reasonable terms, that our counterparties will perform their obligations, or that these agreements, if entered into, will protect us fully against our interest rate risk.

32. *Our Registered Office is not owned by us. In the event we lose such rights, our business, financial condition and results of operations and cash flows could be adversely affected.*

Our registered office situated at A-12 Industrial Development Colony Jalandhar - 144012, Punjab, India, are not owned by us and is owned by our Promoter for which NOC has been provided to our Company. Our Company has not entered into any agreement with the Promoter to use the premises as our registered office. Our Promoter has given premise on rent free basis. In the event our Promoter revokes the NOC, we may be required to vacate our office and identify alternative premises. Further, we cannot assure you that we will be able to continue the above arrangement on commercially acceptable / favorable terms in future. If we are required to vacate the current premises, we would be required to make alternative arrangement for new offices and other infrastructure, and we cannot assure that the new arrangements will be on commercially acceptable/favorable. If we are required to relocate our business operations during this period, we may suffer a disruption in our operations or have to pay higher charges, which could have an adverse effect on our business, prospects, results of operations and financial condition

33. *Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.*

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects and any other financing arrangements. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see "**Dividend Policy**" on page 222 of this Prospectus.

34. *Our insurance coverage may not be adequate to protect us against all potential losses to which we may be subject and this may have a material adverse effect on our business and financial condition.*

While we maintain insurance coverage, in amounts which we believe are commercially appropriate, we may not have sufficient insurance coverage to cover all possible economic losses, including when the loss suffered is not easily quantifiable and in the event of severe damage to our reputation. Even if we have made a claim under an existing insurance policy, we may not be able to successfully assert our claim for any liability or loss under such insurance policy. Additionally, there may be various other risks and losses for which we are not insured either because such risks are uninsurable or not insurable on commercially acceptable terms. The occurrence of an event for which we are not adequately or sufficiently insured could have an adverse effect on our business, results of operations, financial condition and cash flows.

In addition, in the future, we may not be able to maintain insurance of the types or at levels which we deem necessary or adequate or at rates which we consider reasonable. The occurrence of an event for which we are not adequately or sufficiently insured or the successful assertion of one or more large claims against us that exceed available insurance coverage, or changes in our insurance policies (including premium increases or the imposition of large deductible or co-insurance requirements), could have an adverse effect on our business, reputation, results of operations, financial condition and cash flows.

35. *Certain of our Promoters, Directors and Key Management Personnel may be interested in us other than in terms of remuneration and reimbursement of expenses, and this may result in conflict of interest with us.*

In future certain of our Promoters, Directors and Key Management Personnel may interested in us, in addition to regular remuneration or benefits and reimbursement of expenses, to the extent of their shareholding, direct and indirect, and our stock options and benefits arising therefrom. Our Promoter may also interest in us to the extent of his shareholding in us and any benefits arising therefrom. We cannot assure you that our Promoter, certain of our Directors and Key Management Personnel will exercise their rights as shareholders to our benefit and best interest.

36. *Our Company's logo is not registered under the Trademarks Act, 1999 as on date of this Prospectus. We may be unable to adequately protect our intellectual property. Furthermore, we may be subject to claims alleging breach of third-party intellectual property rights.*

Our Company will re-apply for the Trademark with the Trade Marks Authority. Our Company's success largely depends on our image and our trademark is important for differentiating our Company's products from that of our competitors. Our Company is currently conducting its business using the trademark, which is not yet registered with the Trademarks Authority. Our company has applied for trademark application and logo under the provisions of the Trademarks Act, 1999. The status of our trademark and logo is abandoned because the same/similar trademark is /are already on the record of the registrar for the same/ similar goods/services, the current status may be subject to counterfeiting or imitation which would adversely impact our reputation and lead to loss of customer confidence, reduced sales and higher administrative costs. There can be no assurance that third parties will not infringe upon our intellectual property, causing damage to our business prospects, reputation and goodwill.

As of the filling of this Prospectus, our Company has not received any notice or action from the third party for the infringement of any Trademark. Our efforts to protect our intellectual property may not be adequate and may lead to erosion of our business value and our operations could be adversely affected. We may need to litigate in order to determine the validity of such claims and the scope of the proprietary rights of others. Any such litigation could be time consuming and costly and the outcome cannot guaranteed. We may not be able to detect any unauthorized use or take appropriate and timely steps to enforce or protect its intellectual property, which could adversely affect our business, results of operations and financial condition. Trademark Application Details are as follows:

Sr. No.	Logo	Trademark	Class	Applicant	Application Number	Date of Application	Registration Status
1.		Sharp with Device	07	Sharp Chucks & Machines Limited	01628029	December 05, 2007	Abandoned
2.	-	Sharp	07	Sh. Ajay Sikka	699671	February 26, 1996	Abandoned

Further, we may also be susceptible to claims from third parties asserting infringement and other related claims. If claims or actions are asserted against us, we may be required to obtain a licence, modify our existing technology or cease the use of such technology and design a new non-infringing technology. Such licences or design modifications can be extremely costly. Furthermore, necessary licences may not be available to us on satisfactory terms, if at all. In addition, we may decide to settle a claim or action against us, the settlement of which could be costly. We may also be liable for any past infringement. Any of the foregoing could adversely affect our business, results of operations and financial condition. For further details, please see chapter “**Business Overview - Intellectual Property Rights**” on page 131 of this Prospectus.

37. *Any failure to adapt to industry trends and evolving technologies to meet our customers’ demands may materially adversely affect our business and results of operations.*

Changes in consumers’ preferences, regulatory or industry requirements, or competitive technologies may render certain of our products obsolete or less attractive.

We could also face competition for potential future revenue streams if our competitors are able to commercialize certain innovations before we can do so. We may have to procure a license for the technology, which may not be available on reasonable terms, if at all, and may significantly increase our operating expenses or may require us to restrict our business activities in one or more respects. As a result, we may also be required to develop alternative non-infringing technology, which could require significant effort and expense. If we fail to develop sufficient revenue streams covered by adequately robust intellectual property rights, we could lose market share and revenues to competitors. Any of these developments, alone or in combination, may have a material adverse effect on our business, results of operations and financial condition.

38. *We are dependent on third parties for the transportation and timely delivery of our products to customers.*

We rely on third parties for the transportation services for the timely delivery of our products to our customers located in India. Our domestic operations use road transportation. Therefore, we face a risk that there could be deficiency or interruption in these third-party services.

39. *Our operations are subject to environmental, health and safety laws, which could result in material liabilities in the future.*

We are subject to applicable laws and regulations and customer specifications with respect to the protection of the environment and employee health and safety in each of the jurisdictions in which we operate. Our manufacturing processes and products are subject to stringent quality and safety standards and new laws and regulations may be imposed from time to time that may increase our compliance costs or restrict our operations. There can be no assurance that these requirements will not become more stringent over time.

40. *Information relating to the installed capacity and capacity utilisation included in this Prospectus is based on various assumptions and estimates and capacity utilisation may vary.*

Information relating to the installed capacity and capacity utilisation included in this Prospectus are based on various assumptions and estimates of our management that have been taken into account by the chartered accountant in the calculation of our installed capacity and capacity utilisation. Future capacity utilisation rates may vary significantly from the estimated production capacities of our manufacturing facilities and historical capacity utilization rates. In addition, capacity utilisation is calculated differently in different countries, industries and for the different kinds of products we manufacture. Undue reliance should therefore not be placed on our historical installed capacity and capacity utilisation for our existing manufacturing facilities included in this Prospectus. Please refer chapter titled “**Our Business**” – **Installed Capacity and Capacity Utilisation**” on page 131.

41. *If we fail to maintain an effective system of internal controls, we may not be able to successfully manage or accurately report our financial risks.*

Effective internal controls are necessary for us to prepare reliable financial reports and effectively avoid fraud. Moreover, any internal controls that we may implement, or our level of compliance with such controls, may deteriorate over time, due to evolving business conditions. Any dilution or deficiency in our internal control system may expose us to additional risks.

42. *We may be subject to significant risks and hazards when operating and maintaining our units, for which our insurance coverage might not be adequate.*

As on the date of this Prospectus, we operate from our two units located in Jalandhar, Punjab. We generally perform scheduled and unscheduled maintenance. In addition to natural risks such as earthquake, flood, lightning, cyclones and wind, other hazards, such as fire, structural collapse and machinery failure are inherent risks in our operations. They can cause significant personal injury or loss of life, severe damage to and destruction

of property, plant and equipment and may result in the suspension of operations. The occurrence of any one of these events may result in our being named as a defendant in lawsuits asserting claims for substantial damages, including for cleanup costs, personal injury and property damage and fines and/ or penalties.

43. *An inability to renew quality accreditations in a timely manner or at all, or any deficiencies in the quality of our products may give rise to product liability claims and negatively affect our business prospects and financial performance.*

We obtain and maintain quality certifications and accreditations from independent certification entities and also comply with prescribed specifications and standards of quality approved by certification issuing agencies. If we fail to comply with applicable quality standards or if we are otherwise unable to obtain such quality accreditations in the future in a timely manner or at all, our business prospects and financial performance may be negatively affected.

44. *We may be subject to unionization, work stoppages or increased labour costs, which could adversely affect our business and results of operations.*

Our industry is labour intensive. The success of our operations depends on availability of labour and maintaining a good relationship with our workforce. We do not have any trade union registered under the Trade Unions Act, 1926. In the past three years, we have not experienced any labour dispute. We do not have any formal policy for redressal of labour disputes. Although we have not experienced any major interruption to our operations as a result of labour disputes in the recent past, there can be no assurance that we will not experience any such disruption in the future as a result of disputes or disagreements with our work force, which may adversely affect our ability to continue our business operations. We may also have to incur additional expense to train and retain skilled labour. We are also subject to a number of stringent labour laws that protect the interests of workers, including legislation that imposes financial obligations on employers upon retrenchment. There can be no assurance that we will not experience labour unrest in the future, which may delay or disrupt our operations. Any labour unrest including labour disputes, strikes and lockouts, industrial accidents, experienced by us could directly or indirectly prevent or hinder our normal operating activities and, if not resolved in a timely manner, could lead to disruptions in our operations. In the event of any prolonged delay or disruption of our business, results of operations and financial condition could be materially and adversely affected.

45. *We may not be able to sustain effective implementation of our business and growth strategies.*

The success of our business will depend greatly on our ability to effectively implement our business and growth strategy. Our growth strategy involves focusing on Optimal Utilization of Resources and to develop relationships with customer and suppliers. For further details, see the chapter titled “***Business Overview - Our Strategies***” on page 131 of this Prospectus. Our success in implementing our growth strategies may be affected by:

- Our ability to increase revenue from our existing customer;
- Our ability to increase our customer base;
- Our ability to maintain the quality of our products;
- Our ability to improve efficiencies.

Our Company if is not able to execute our strategy on time and within our estimated budget, or that our expansion and development plans fails to increase our profitability. Any of these factors could impact our results of operations. Further, we expect our growth strategy to place significant demands on our management, financial and other resources and require us to continue developing and improving our operational, financial and other internal controls. Our inability to manage our business and implement our growth strategy could have an effect on our business, financial condition and profitability.

46. *Our Company will not receive any proceeds from the Offer for Sale portion, and the Selling Shareholder shall be entitled to the Offer Proceeds to the extent of the Equity Shares offered by him in the Offer for Sale.*

One of the Offer includes an offer for sale of such number of Equity Shares aggregating 19,28,516 Equity Shares by the Selling Shareholder. The entire proceeds from the Offer for Sale will be paid to the Selling Shareholder pursuant to the Offer for Sale, and our Company will not receive any such proceeds. Further, all cost, fees and expenses (including all applicable taxes) in respect of the Offer which will be borne by our Company in accordance with SSA Agreement.

47. *There is no monitoring agency appointed by Our Company to monitor the utilization of the Issue proceeds.*

As per SEBI (ICDR) Regulations, 2018, as amended, appointment of monitoring agency is required only for Issue size above Rs. 10,000.00 Lacs. Hence, we have not appointed any monitoring agency to monitor the utilization of Issue proceeds. However, the audit committee of our Board will monitor the utilization of Issue

proceeds in terms of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. Further, our Company shall inform about material deviations in the utilization of Issue proceeds to the stock exchange and shall also simultaneously make the material deviations / adverse comments of the audit committee public.

48. *We face foreign exchange risks that could adversely affect our results of operations and cash flows*

We have foreign currency receivables for sale of our products and are therefore, exposed to foreign exchange risk between the Indian Rupee and U.S. Dollars and other foreign currencies. There can be no assurance that we shall not be subject to foreign currency exchange losses in the future. Further, volatility in exchange rates would result in an increase in the cost of our products. Our Company had not enter into contract to hedge exchange rate fluctuations. We bear the complete risk of currency exchange rate fluctuations. We may not be able to pass on such increase in costs to our customers. Any significant fluctuation in the value of the Indian Rupee against such currencies may adversely affect our results of operations. Any appreciation of foreign currencies against the Indian Rupee may result in reduction of our margins and consequently have an adverse effect on business and result of operations. The following income received due to foreign exchange fluctuations for the financial year ended March 31, 2023, March 31, 2022 and March 31, 2021 are as follows:

(₹ in Lakhs)

Particulars	As at March 31, 2023	March 31, 2022	March 31, 2021
PMRY EPF subsidy received	12.34	13.79	4.94
Rebate (PSPCL)	218.00	Nil	Nil

EXTERNAL RISK FACTORS

49. *Political, economic or other factors that are beyond our control may have an adverse effect on our business and results of operations.*

The Indian economy and its securities markets are influenced by economic developments and volatility in securities markets in India as well as other countries. Investors' reactions to developments in one country may have adverse effects on the market price of securities of companies located elsewhere, including India. Adverse economic developments, such as rising fiscal or trade deficit, in other emerging market countries may also affect investor confidence and cause increased volatility in Indian securities markets and indirectly affect the Indian economy in general.

In addition to the above, our Company is incorporated in India and its assets are located in India. Consequently, our performance and the market price of the Equity Shares may be affected by interest rates, government policies, taxation, social and ethnic instability and other political and economic developments affecting India.

Factors that may adversely affect the Indian economy, and hence our results of operations, may include:

- the macroeconomic climate, including any increase in Indian interest rates or inflation;
- any exchange rate fluctuations, the imposition of currency controls and restrictions on the right to convert or repatriate currency or export assets;
- any scarcity of credit or other financing in India, resulting in an adverse effect on economic conditions in India and scarcity of financing for our expansions;
- prevailing income conditions among Indian consumers and Indian corporations;
- epidemic, pandemic or any other public health in India or in countries in the region or globally, including in India's various neighboring countries, such as the highly pathogenic H7N9, H5N1 and H1N1 strains of influenza in birds and swine and more recently, the COVID-19 pandemic;
- volatility in, and actual or perceived trends in trading activity on, India's principal stock exchanges;
- terrorism or military conflict in India or in countries in the region or globally, including in India's various neighbouring countries;
- occurrence of natural or man-made disasters (such as typhoons, flooding, earthquakes and fires) which may cause us to suspend our operations;

- prevailing regional or global economic conditions, including in India's principal export markets;
- other significant regulatory or economic developments in or affecting India or its consumption sector;
- international business practices that may conflict with other customs or legal requirements to which we are subject, including anti-bribery and anti-corruption laws;
- protectionist and other adverse public policies, including local content requirements, import/export tariffs, increased regulations or capital investment requirements;
- logistical and communications challenges;
- downgrading of India's sovereign debt rating by rating agencies;
- difficulty in developing any necessary partnerships with local businesses on commercially acceptable terms or on a timely basis; and
- Being subject to the jurisdiction of foreign courts, including uncertainty of judicial processes and difficulty enforcing contractual agreements or judgments in foreign legal systems or incurring additional costs to do so.

Any slowdown or perceived slowdown due to these factors could have an adverse effect on our business, financial condition and results of operations and reduce the price of our Equity Shares. Any financial disruption could have an adverse effect on our business, future financial performance, shareholders' equity and the price of our Equity Shares.

50. *Financial instability in other countries may cause increased volatility in Indian financial markets.*

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, including conditions in the United States, Europe and certain emerging economies in Asia. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and us. Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby negatively affect the Indian economy. Financial disruptions could materially and adversely affect our business, prospects, financial condition, results of operations and cash flows. Further, economic developments globally can have a significant impact on our principal markets. Concerns related to a trade war between large economies may lead to increased risk aversion and volatility in global capital markets and consequently have an impact on the Indian economy.

In addition, China is one of India's major trading partners and there are rising concerns of a possible slowdown in the Chinese economy as well as a strained relationship with India, which could have an adverse impact on the trade relations between the two countries. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, implemented a number of policy measures designed to add stability to the financial markets. However, the overall long-term effect of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have the intended stabilizing effects. Any significant financial disruption could have a material adverse effect on our business, financial condition and results of operation. These developments, or the perception that any of them could occur, have had and may continue to have a material adverse effect on global economic conditions and the stability of global financial markets and may significantly reduce global market liquidity, restrict the ability of key market participants to operate in certain financial markets or restrict our access to capital. This could have a material adverse effect on our business, financial condition and results of operations and reduce the price of the Equity Shares.

51. *If inflation rises in India, increased costs may result in a decline in profits. Inflation rates in India have been volatile in recent years, and such volatility may continue.*

India has experienced high inflation in the recent past. Increasing inflation in India could cause a rise in the costs of rent, wages, raw materials and other expenses. High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs.

Any increase in inflation in India can increase our expenses, which we may not be able to adequately pass on to our clients, whether entirely or in part, and may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or increase the price of our products to pass the increase in costs on to our clients. Additionally, if we are unable to increase our revenues sufficiently to offset our increased costs due to inflation, it could have an adverse effect on our business, prospects, financial condition, results of operations and cash flows.

Further, the GoI has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future

52. *Our ability to raise foreign capital may be constrained by Indian law.*

As an Indian company, we are subject to exchange control regulations that regulate borrowing in foreign currencies. Such regulatory restrictions limit our financing sources and could constrain our ability to obtain financings on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that any required regulatory approvals for borrowing in foreign currencies will be granted to us without onerous conditions, or at all. Limitations on foreign debt may have an adverse effect on our business and financial results.

53. *Any downgrading of India's debt rating by a domestic or international rating agency could adversely affect our business.*

India's sovereign debt rating could be downgraded due to various factors, including changes in tax or fiscal policy or a decline in India's foreign exchange reserves, which are outside our control. Any adverse revisions to India's credit ratings for domestic and international debt by domestic or international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our business and financial performance, ability to obtain financing for capital expenditures and the price of our Equity Shares.

54. *The occurrence of natural or man-made disasters could adversely affect our results of operations and financial condition. Hostilities, fires, epidemics, pandemics, acts of war, terrorist attacks, civil unrest and other events could materially and adversely affect our business.*

Natural disasters (such as typhoons, flooding and earthquakes), epidemics, pandemics such as COVID-19, acts of war, terrorist attacks and other events, many of which are beyond our control, may lead to economic instability, including in India or globally, which may in turn materially and adversely affect our business, financial condition and results of operations. Our operations may be adversely affected by fires, natural or man-made disasters and/or severe weather, which can result in damage to our property or inventory and generally reduce our productivity and may require us to evacuate personnel and suspend operations. Any terrorist attacks or civil unrest as well as other adverse social, economic and political events in India or countries to who we export our products could have a negative effect on us. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the price of the Equity Shares.

55. *Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, may adversely affect our business, financial condition and results of operations.*

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy. For instance, The Finance Act, 2020 ("Finance Act"), has, amongst others things, provided a number of amendments to the direct and indirect tax regime, including, without limitation, a simplified alternate direct tax regime and that dividend distribution tax ("DDT"), will not be payable in respect of dividends declared, distributed or paid by a domestic Company after March 31, 2020, and accordingly, such dividends would not be exempt in the hands of the shareholders, both resident as well as non-resident and likely be subject to tax deduction at source. The Company may or may not grant the benefit of a tax treaty (where applicable) to a non-resident shareholder for the purposes of deducting tax at source from such dividend. Investors should consult their own tax advisors about the consequences of investing or trading in the Equity Shares.

Further, the Finance Act, 2019 stipulates any sale, transfer and issue of securities through exchanges, depositories or otherwise to be charged with stamp duty. The Finance Act, 2019 has also clarified that the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, the onus will be on the transferor. The stamp duty for transfer of securities other than debentures, on a delivery basis is specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount. As such, there is no certainty on the impact that the Finance Act, 2019 may have on our Company's business and operations.

Further, the Government of India has announced the union budget for Fiscal 2021, pursuant to which the Finance Act, effective from July 1, 2020, has introduced various amendments. As such, there is no certainty on the impact that the Finance Act, 2020 may have on our business and operations or on the industry in which we operate.

In addition, unfavourable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations including foreign investment laws governing our business, operations and group structure could

result in us being deemed to be in contravention of such laws or may require us to apply for additional approvals. We may incur increased costs relating to compliance with such new requirements, which may also require management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may affect the viability of our current business or restrict our ability to grow our business in the future.

56. *Investors may not be able to enforce a judgment of a foreign court against us.*

Our Company is a Company incorporated under the laws of India. All our Company's Directors and officers are residents of India and all of our assets are located in India. As a result, it may not be possible for investors to effect service of process upon our Company or such persons in jurisdictions outside India, or to enforce judgments obtained against such parties outside India. Furthermore, it is unlikely that an Indian court would enforce foreign judgments if that court was of the view that the amount of damages awarded was excessive or inconsistent with public policy, or if judgments are in breach or contrary to Indian law. In addition, a party seeking to enforce a foreign judgment in India is required to obtain approval from the RBI to execute such a judgment or to repatriate outside India any amounts recovered.

RISK RELATED TO OUR EQUITY SHARES

57. *Rights of shareholders under Indian laws may differ to those under the laws of other jurisdictions.*

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be similar to the shareholders' rights under the laws of other countries or jurisdictions.

58. *The Issue Price of the Equity Shares may not be indicative of the market price of the Equity Shares after the Issue.*

The Issue Price of the Equity Shares has been determined by our Company in consultation with the LM, and through the Fixed Issue Process. This price is based on numerous factors, as described under "**Basis for Offer Price**" on page 102 of this Prospectus and may not be indicative of the market price for the Equity Shares after the Issue. The market price of the Equity Shares could be subject to significant fluctuations after the Issue, and may decline below the Issue Price. We cannot assure you that the investor will be able to resell their Equity Shares at or above the Issue Price.

59. *The trading volume and market price of the Equity Shares may be volatile following the Issue.*

The market price of the Equity Shares may fluctuate as a result of, among other things, the following factors, some of which are beyond our control:

- quarterly variations in our results of operations;
- results of operations that vary from the expectations of securities analysts and investors;
- results of operations that vary from those of our competitors;
- changes in expectations as to our future financial performance, including financial estimates by research analysts and investors;
- a change in research analysts' recommendations;
- announcements by us or our competitors of significant acquisitions, strategic alliances, joint operations or capital commitments;
- announcements by third parties or governmental entities of significant claims or proceedings against us;
- new laws and governmental regulations applicable to our industry;
- additions or departures of key management personnel;
- changes in exchange rates;
- fluctuations in stock market prices and volume; and
- general economic and stock market conditions.

60. ***Our Equity Shares have not been publicly traded prior to this Issue. After this Issue, our Equity Shares may experience price and volume fluctuations and an active trading market for our Equity Shares may not develop. Further, the price of our Equity Shares may be volatile, and you may be unable to resell your Equity Shares at or above the Issue Price, or at all.***

Prior to this Issue, there has been no public market for our Equity Shares. An active trading market on the Stock Exchanges may not develop or be sustained after this Issue.

The trading price of our Equity Shares after this Issue may be subject to significant fluctuations in response to factors including general economic, political and social factors, developments in India's fiscal regime, variations in our operating results, volatility in Indian and global securities markets, developments in our business as well as our industry and market perception regarding investments in our business, changes in the estimates of our performance or recommendations by financial analysts, and announcements by us or others regarding contracts, acquisitions, strategic partnerships, joint ventures, or capital commitments. The trading price of our Equity Shares may also decline in reaction to events that affect the entire market and/or other companies in our industry even if these events do not directly affect us and/or are unrelated to our business or operating results.

61. ***Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may have an adverse effect on the value of our Equity Shares, independent of our operating results.***

On listing, our Equity Shares will be quoted in Indian Rupees on the Stock Exchanges. Any dividends in respect of our Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by Equity Shareholders. For example, the exchange rate between the Rupee and the U.S. dollar has fluctuated in recent years and may continue to fluctuate substantially in the future, which may have an adverse effect on the returns on our Equity Shares, independent of our operating results.

62. ***Foreign investors are subject to foreign investment restrictions under Indian law that limit our ability to attract foreign investors, which may adversely affect the trading price of our Equity Shares.***

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the requirements specified by the RBI. If the transfer of shares is not in compliance with such requirements or falls under any of the specified exceptions, then prior approval of the RBI will be required. Further, in accordance with press note 3 of 2020, dated April 17, 2020, issued by the Department for Promotion of Industry and Internal Trade, Government of India, the FDI Policy has been recently amended to state that all investments by entities incorporated in a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country will require prior approval of the Government of India. These investment restrictions shall also apply to subscribers of offshore derivative instruments.

In addition, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no-objection or tax clearance certificate from the income tax authority. Additionally, the Indian government may impose foreign exchange restrictions in certain emergency situations, including situations where there are sudden fluctuations in interest rates or exchange rates, where the Indian government experiences extreme difficulty in stabilizing the balance of payments or where there are substantial disturbances in the financial and capital markets in India. These restrictions may require foreign investors to obtain the Indian government's approval before acquiring Indian securities or repatriating the interest or dividends from those securities or the proceeds from the sale of those securities. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

63. ***Investors may have difficulty enforcing foreign judgments against us or our management.***

We are a limited liability company incorporated under the laws of India. All our directors and executive officers are residents of India and a majority of our assets and such persons are located in India. As a result, it may not be possible for investors to effect service of process upon us or such persons outside of India, or to enforce judgments obtained against such parties outside of India.

Recognition and enforcement of foreign judgments is provided for under Section 13 of CPC on a statutory basis. Section 13 of the CPC provides that foreign judgments shall be conclusive regarding any matter directly adjudicated upon, except: (i) where the judgment has not been pronounced by a court of competent jurisdiction; (ii) where the judgment has not been given on the merits of the case; (iii) where it appears on the face of the proceedings that the judgment is founded on an incorrect view of international law or a refusal to recognize the

law of India in cases to which such law is applicable; (iv) where the proceedings in which the judgment was obtained were opposed to natural justice; (v) where the judgment has been obtained by fraud; and (vi) where the judgment sustains a claim founded on a breach of any law then in force in India. Under the CPC, a court in India shall, upon the production of any document purporting to be a certified copy of a foreign judgment, presume that the judgment was pronounced by a court of competent jurisdiction, unless the contrary appears on record. However, under the CPC, such presumption may be displaced by proving that the court did not have jurisdiction.

64. *You may be subject to Indian taxes arising out of capital gains on the sale of our Equity Shares.*

Capital gains arising from the sale of equity shares within 12 months in an Indian company are generally taxable in India. Any gain realized on the sale of listed equity shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if Securities Transaction Tax ("STT") is paid on the transaction. STT is levied on and collected by a domestic stock exchange on which equity shares are sold. Any gain realized on the sale of equity shares held for more than 12 months to an Indian resident, which are sold other than on a recognized stock exchange and on which no STT has been paid, is subject to long term capital gains tax in India. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India. Capital gains arising from the sale of equity shares is exempt from taxation in India where an exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident.

Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable to pay tax in India as well as in their own jurisdiction on a gain on the sale of equity shares

65. *Any future issuance of Equity Shares by us may dilute your shareholding and sales of the equity shares by our Promoter, Promoter Group or other major shareholders may adversely affect the trading price of the Equity Shares.*

Any future issuance of Equity Shares by us may dilute your shareholding in us. In addition, any sales of substantial amounts of the Equity Shares in the public market after the completion of the Issue, including by our Promoter or the perception that such sales could occur, could adversely affect the market price of the Equity Shares and could materially impair future ability of us to raise capital through offerings of the Equity Shares. Our Promoters currently hold an aggregate of 68.66% of the pre issued paid up Equity Shares. After the completion of the Issue, our Promoters will continue to hold 62.44% of the post issue paid up Equity Shares. We cannot predict the effect, if any, that the sale of the Equity Shares held by our Promoters or other major shareholders or the availability of these Equity Shares for future sale will have on the market price of the Equity Shares.

66. *Holders of Equity Shares may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby suffer future dilution of their ownership position.*

A public company incorporated in India must offer its equity shareholders pre-emptive rights to subscribe and pay for a proportionate number of equity shares to maintain their existing ownership percentages prior to issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the equity shares voting on such resolution.

However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without our filing an offer document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights, unless we make such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for your benefit. The value such custodian receives on the sale of any such securities and the related transaction costs cannot be predicted. To the extent that you are unable to exercise pre-emptive rights granted in respect of our Equity Shares, your proportional interests in our Company would be diluted.

67. *There is no guarantee that our Equity Shares will be listed on EMERGE Platform of NSE in a timely manner or at all.*

In accordance with Indian law and practice, permission for listing and trading of our Equity Shares will not be granted until after certain actions have been completed in relation to this Issue and until Allotment of Equity Shares pursuant to this Issue.

In accordance with current regulations and circulars issued by SEBI, our Equity Shares are required to be listed on the EMERGE Platform of NSE within such time as mandated under UPI Circulars, subject to any change in the prescribed timeline in this regard. However, we cannot assure you that the trading in our Equity Shares will commence in a timely manner or at all. Any failure or delay in obtaining final listing and trading approvals may restrict your ability to dispose of your Equity Shares.

68. *The requirements of being a listed company may strain our resources.*

We are not a listed company and have historically not been subjected to the compliance requirements and increased scrutiny of our affairs by shareholders, regulators and the public at large associated with being a listed company. As a listed company, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur as an unlisted company. We will be subject to the SEBI Listing Regulations which will require us to file audited annual and unaudited quarterly reports with respect to our business and financial condition. If we experience any delays, we may fail to satisfy our reporting obligations and/or we may not be able to readily determine and accordingly report any changes in our results of operations or cash flows as promptly as other listed companies.

Further, as a listed company, we will be required to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions. In order to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, significant resources and management attention will be required. As a result, our management's attention may be diverted from our business concerns, which may adversely affect our business, prospects, financial condition, results of operations and cash flows. In addition, we may need to hire additional legal and accounting staff with appropriate experience and technical accounting knowledge, but we cannot assure you that we will be able to do so in a timely and efficient manner.

69. *Rights of shareholders of companies under Indian law may be more limited than under the laws of other jurisdictions.*

Our Articles of Association, composition of our Board, Indian laws governing our corporate affairs, the validity of corporate procedures, directors' fiduciary duties, responsibilities and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights under Indian law may not be as extensive and widespread as shareholders' rights under the laws of other countries or jurisdictions. Investors may face challenges in asserting their rights as shareholder in an Indian company than as shareholders of an entity in another jurisdiction.

70. *Pursuant to listing of the Equity Shares, we may be subject to pre-emptive surveillance measures like Additional Surveillance Measure (ASM) and Graded Surveillance Measures (GSM) by the Stock Exchanges in order to enhance market integrity and safeguard the interest of investors.*

SEBI and Stock Exchanges in order to enhance market integrity and safeguard interest of investors, have been introducing various enhanced pre-emptive surveillance measures. The main objective of these measures is to alert and advice investors to be extra cautious while dealing in these securities and advice market participants to carry out necessary due diligence while dealing in these securities. Accordingly, SEBI and Stock Exchanges have provided for (a) GSM on securities where such trading price of such securities does not commensurate with financial health and fundamentals such as earnings, book value, fixed assets, net-worth, price per equity multiple and market capitalization; and (b) ASM on securities with surveillance concerns based on objective parameters such as price and volume variation and volatility. On listing, we may be subject to general market conditions which may include significant price and volume fluctuations. The price of our Equity Shares may also fluctuate after the Issue due to several factors such as volatility in the Indian and global securities market, our profitability and performance, performance of our competitors, changes in the estimates of our performance or any other political or economic factor. The occurrence of any of the abovementioned factors may trigger the parameters identified by SEBI and the Stock Exchanges for placing securities under the GSM or ASM framework such as net worth and net fixed assets of securities, high low variation in securities, client concentration and close to close price variation. In the event our Equity Shares are covered under such pre-emptive surveillance measures implemented by SEBI and the Stock Exchanges, we may be subject to certain additional restrictions in relation to trading of our Equity Shares such as limiting trading frequency (for example, trading either allowed once in a week or a month) or freezing of price on upper side of trading which may have an adverse effect on the market price of our Equity Shares or may in general cause disruptions in the development of an active market for and trading of our Equity Shares.

Notes:

1. Holding period (in days) is calculated as respective current asset or current liability divided by revenue from operations multiplied by number of days (see note 2 below). Estimated holding days for Fiscal 2023 and 2024 have been rounded to the nearest number.

2. The holding period has been computed over 365 (three hundred sixty-five) days for each fiscal year

The table below sets forth the key assumptions for our working capital projections:

Particular	Assumption
Inventory	Our Company had maintained inventory holding period of 140 days in Fiscal 2021, 122 days in Fiscal 2022 and 134 days in Fiscal 2023. The business operations during the said periods were impacted by Covid-19. However, the holding level has reduced gradually on account of rationalization of inventory management. We expect holding level to stay around 135 days for Fiscal 2024.

Trade Receivable	The holding levels of trade receivables were at 57 days in Fiscal 2021, 81 days in Fiscal 2022 and 60 days in Fiscal 2023. As our strategy, our Company has taken steps to improve trade receivable days by rationalizing sales mix. We have been able to reduce trade receivable days from 81 days in Fiscal 2022 to 60 days in Fiscal 2023. However, we consider that we would be able to maintain the trade receivables around 60 days in the Fiscal 2024.
Trade Payable	Our Company had maintained trade payables at 48 days in Fiscal 2021, 56 days in Fiscal 2022 and 48 days in Fiscal 2023. We expect to maintain trade payable days at 45 days for Fiscal 2024.

2. General Corporate Purposes

Our Company intends to deploy any balance Net Proceeds towards general corporate purposes, not exceeding 25% of the Gross Proceeds, in compliance with the SEBI ICDR Regulations. The allocation or quantum of utilization of funds towards the specific purposes will be determined by our Board, based on our business requirements and other relevant considerations, from time to time.

General corporate purposes may include, but are not restricted to, the following:

- a) strategic initiatives;
- b) funding growth opportunities and capital expenditure;
- c) strengthening marketing capabilities and brand building exercises;
- d) meeting ongoing general corporate contingencies;
- e) meeting fund requirements of our Company, in the ordinary course of its business;
- f) meeting expenses incurred in the ordinary course of business;
- g) conversion of unsecured loan; and
- h) any other purpose, as may be approved by the Board, subject to applicable law.

WORLD ECONOMIC OUTLOOK

The baseline forecast is for growth to fall from 3.4 percent in 2022 to 2.8 percent in 2023, before settling at 3.0 percent in 2024. Advanced economies are expected to see an especially pronounced growth slowdown, from 2.7 percent in 2022 to 1.3 percent in 2023. In a plausible alternative scenario with further financial sector stress, global growth declines to about 2.5 percent in 2023 with advanced economy growth falling below 1 percent. Global headline inflation in the baseline is set to fall from 8.7 percent in 2022 to 7.0 percent in 2023 on the back of lower commodity prices but underlying (core) inflation is likely to decline more slowly. Inflation’s return to target is unlikely before 2025 in most cases.

The January 2023 World Economic Outlook update projects that global growth will fall to 2.9 percent in 2023 but rise to 3.1 percent in 2024. The 2023 forecast is 0.2 percentage point higher than predicted in the October 2022 World Economic Outlook but below the historical average of 3.8 percent. Rising interest rates and the war in Ukraine continue to weigh on economic activity. China’s recent reopening has paved the way for a faster-than-expected recovery. Global inflation is expected to fall to 6.6 percent in 2023 and 4.3 percent in 2024, still above pre-pandemic levels.

OVERVIEW OF AUTO COMPONENTS INDUSTRY IN INDIA

India has become the fastest-growing economy in the world in recent years. This fast growth, coupled with rising incomes, a boost in infrastructure spending and increased manufacturing incentives, has accelerated the automobile industry. The two-wheeler segment dominated the automobile industry because of the Indian middle class, with automobile sales standing at 19.45 million units in FY23.

Significant demand for automobiles also led to the emergence of more original equipment and auto components manufacturers. As a result, India developed expertise in automobiles and auto components, which helped boost international demand for Indian automobiles and auto components. Hence, the Indian automobile industry has a considerable impact on the auto component industry.

India’s auto component industry is an important sector driving macroeconomic growth and employment. The industry comprises players of all sizes, from large corporations to micro entities, spread across clusters throughout the country. The auto components industry accounted for 2.3% of India’s GDP and provided direct employment to 1.5 million people. By 2026, the automobile component sector will contribute 5-7% of India’s GDP. The Automotive Mission Plan (2016-26) projects to provide direct incremental employment to 3.2 million by 2026.

The industry is a leader in exports and provides jobs to over 3.7 crore people. From FY16-FY22, the industry registered a CAGR of 6.35% and was valued at US\$ 56.50 billion in FY22. The auto component industry exported US\$ 19 billion and imported US\$ 18.3 billion worth of components in 2021-22, resulting in the highest export surplus of US\$ 700 million. The component sales to OEMs in the domestic market grew by 46% to US\$ 27.27 billion (Rs. 2.23 lakh crore).

Due to the high development prospects in all vehicle industry segments, the auto component sector is expected to see double-digit growth in FY22. The industry is expected to stand at US\$ 200 billion by FY26.

MARKET SIZE

India's auto components industry's market share has significantly expanded, led by increasing demand for automobiles by the growing middle class and exports globally. Due to the remarkable growth in demand for Indian auto components, several Indian and international players have entered the industry. India's auto component industry is broadly classified into organised and unorganised sectors. While the unorganised sector consists of low-valued items and mostly serves the aftermarket category, the organised sector serves OEMs and includes high-value precision instruments.

The turnover of the automotive component industry grew 34.8% to Rs. 2.65 lakh crore (US\$ 33.8 billion) during April-September 2022 compared to the first half of the previous year. Moreover, the auto component exports increased by 8.6% in H123 to US\$ 10.1 billion (Rs. 79,033 crore) from US\$ 9.3 billion (Rs. 68,746 crore) in H1 2021-22.

As per the Automobile Component Manufacturers Association (ACMA) forecast, auto component exports from India is expected to reach US\$ 30 billion by 2026. The auto component industry is projected to record US\$ 200 billion in revenue by 2026. Strong international demand and resurgence in the local original equipment and aftermarket segments are predicted to help the auto component industry grow 20-23% in FY22.

The government's AMP 2016-26 will help the automotive industry grow and will benefit the economy in the following ways:

- The auto industry's GDP contribution will rise to over 12%.
- Additional ~65 million direct and indirect jobs will be created.
- End-of-life policy will be implemented for old vehicles.

ROAD AHEAD

The rapidly globalizing world is creating newer opportunities for the transportation industry, especially while shifting towards electric, electronic and hybrid cars, which are deemed more efficient, safe and reliable modes of transportation. Over the next decade, this will lead to newer verticals and opportunities for auto component manufacturers. To help them adjust to the shifting dynamics of the sector, the Indian government has already offered various production incentives. India is also investing heavily in electric car infrastructure.

In December 2020, Power PSU JV EESL announced a plan to install about 500 EV charging stations in the country. The number of charging stations stood at 1,800 in March 2021 and is expected to reach 4 lakh by 2026. This would make it easier for the auto component industry to take advantage of the EV opportunity and expertise in EV components manufacturing, thus helping India on a global scale. This, coupled with the shift in global supply chains, will help the Indian global automotive component trade to expand 4-5% to US\$ 80 billion by 2026. Moreover, the Indian auto component industry is predicted to become the third largest in the world.

Phased implementation of Unified Payments Interface

SEBI has issued a **UPI Circulars** in relation to streamlining the process of public Offer of equity shares and convertibles. Pursuant to the UPI Circulars, UPI will be introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for applications by RIIs through intermediaries with the objective to reduce the time duration from public Offer closure to listing from six working days to up to three working days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI Mechanism, the UPI Circular proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

Phase I:

This phase was applicable from January 1, 2019, until March 31, 2019, or floating of five main board public issues, whichever was later. Subsequently, the timeline for implementation of Phase I was extended until June 30, 2019. Under this phase, an RII also had the option to submit the ASBA Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing would continue to be six Working Days.

Phase II:

This phase has become applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019, has decided to extend the timeline for implementation of UPI Phase II until March 31, 2020. Under this phase, submission of the physical ASBA Form by

an RII through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds has been discontinued and is replaced by the UPI payment mechanism. However, the time duration from public issue closure to listing continues to be six Working Days during this phase. Subsequently, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, extended the timeline for implementation of UPI Phase II till further notice.

Phase III:

The commencement period of Phase III is yet to be notified. In this phase, the time duration from public issue closure to listing would be reduced to be three Working Days.

The Offer will be made under UPI Phase II of the UPI Circular, unless UPI Phase III of the UPI Circular becomes effective and applicable on or prior to the Bid/Offer Opening Date.

For further details, refer to the General Information Document available on the websites of the Stock Exchange and the Lead Manager

Pursuant to the SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, issued by SEBI, as amended by the SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 (the “UPI Streamlining Circular”), SEBI

has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Streaming Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors’ complaints, the relevant SCSB as well as the post-Offer LM will be required to compensate the concerned investor.

All SCSBs offering facility of making application in public issues shall also provide facility to make application using UPI.

Our Company will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the UPI Bidders using the UPI.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 (“FEMA”). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The Government of India has from time to time made policy pronouncements on Foreign Direct Investments (“FDI”) through press notes and press releases. The Department for Promotion of Industry and Internal Trade (“DPIIT”) issued the Consolidated Foreign Direct Investment Policy notified by the DPIIT File No. 5(2) / 2020-FDI Policy dated October 15, 2020, with effect from October 15, 2020 (the “FDI Policy”), which consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT or the DPIIT that were in force and effect prior to October 15, 2020. The Government of India proposes to update the consolidated circular on FDI Policy once every year and therefore, the FDI Policy will be valid until the DPIIT issues an updated circular.

Under the current applicable sectoral cap, foreign direct investment in micro and small enterprises is subject to sectoral caps, entry routes and other sectoral regulations. At present our Company is in the business of manufacturing and exporting of power chucks, lathe chucks, drill chucks, machine tools accessories, striking tools, and customized castings & forging components. As these sectors / activities are not specifically listed under the FDI Policy 2020, it shall come under the Permitted Sectors category, hence 100 % foreign direct investment through automatic route is permitted subject to applicable laws / regulations, security and other conditionalities. For further details please see the chapter titled “*Key Industry Regulations and Policies*” beginning on page 152 of this Prospectus.

Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non- Debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country (“**Restricted Investors**”), will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction / purview, such subsequent change in the beneficial ownership will also require approval of the Government. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA Rules. Pursuant to the Foreign Exchange Management (Non- Debt Instruments) (Fourth Amendment) Rules, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank of fund in India.
